Foreword

Welcome to the intriguing and bewitching world of Astrology, the powerful, predictive subject that has caught the attention of many a non-believer across the world, for ages.

Unearthing the hidden knowledge of self, the world and the universe has been an eternal quest of human beings. The curiosity to know what the future beholds, and the undying urge to be able to capture the future has always been a driving force behind evolution, innovation, invention, the struggle for existence and overall human development.

Probably that's why we have always been scampering to get a slice of the future, and hence, the eternal popularity of astrology and other predictive subjects. If nothing else, this knowledge makes us feel 'in-control'! Astrology is one of the keys to this knowledge – of the self and of the future. How successful or unsuccessful it tends to be is a different debate, altogether. But, going by the huge number of its followers and believers, astrology surely looks a potent area.

For years altogether, planetary movements and interactions of various heavenly bodies have fascinated the best of the minds. And, this very study of the celestial bodies – the Sun, the Moon and the planets – and their positions in relation to the human life and affairs has come to be known as astrology. The science or, as skeptics would call it, the subject of astrology is as vast as the Universe itself. The permutations, combinations, integration and many other principles of Mathematics have been employed to study, understand and decipher the fundamentals of astrology.

Usually an Astrologer will draw up a horoscope of a person with the help of his/her birth data – date, time and place of birth – and then sync it with the positions of the celestial bodies at that time to determine the fate and future of the person, his personal qualities, his natural gifts, and almost every aspect of his life, short-term or long-term prospects of his education, health, love life, finances etc.

There are various systems and ways in which Astrology has been practised and understood. However, Eastern Astrology System (better known as Indian or Vedic astrology) and Western Astrology System are quite popular. Also called the Nirvana (Indian/ Eastern) system and Sayana (Western) system of Astrology, both of these are reliable and relevant in their own ways.

Broadly speaking, the Western or Sayana Astrology finds its basic principles on the Solar Horoscope and hence, the Sun Signs (largely based on one's Date of Birth). On the other hand, the Eastern/ Vedic Astrology is based largely on the Moon Signs. Owing to the ease of identifying the Sun Signs – they are classified as per the birth dates - the layman finds a higher appeal in

Sun Signs.

Although a person's individual Natal Chart and other planetary aspects (current and past) are required to accurately predict his/ her future and personality, the Sun-Signs do give a fair, albeit general, indication.

This book aims to bring you the both – the general personality features of each Sun Sign and the predictions for their future in 2023. In fact, there is something for everyone in this book – for the avid news buffs and the crazy sports buffs, not to mention the zodiac junkie!

Your Zodiac Horoscopes 2023 by GaneshaSpeaks.com decodes each Sun Sign – by giving you a complete low-down on general nuances – with interesting nuggets of information and features that make for great reads. This aspect gives this book a timeless appeal. The importance of predictions for a coming year may wane as the time elapses, but this beautifully classified information on Zodiac Signs will always remain relevant, making this book an invaluable, handy reference. The 'Sun-Sign in a nutshell' feature is meant to give you a fair idea of the most interesting aspects related to each Sign – be it the best day, lucky gemstone etc.

As you move to the Predictions section, you will come across clear, concise and detailed – chronologically arranged - predictions for the year 2023 for each Sun Sign. The predictions have been arrived at after a meticulous analysis of the planetary alignments in store in the year 2023 vis-a-vis each Zodiac Sign.

All attempts have been made to keep the predictions lucid and concise. For each Sign, you will get yearly, in-depth month-by-month, week-by-week forecasts, monthly tips and important dates. The annual horoscope section comprehensively touches most important aspects and areas of every life - like love, relationships, finance, career, domestic life, health trends etc. The monthly and weekly forecasts provide you ample hints on vital days, important areas - with respect to planetary alignments at a given time – and times, when you would need to be extra cautious.

Your Zodiac Horoscopes 2023 by GaneshaSpeaks.com has been written and compiled with an aim to enhance the happiness and satisfaction quotient of your life. As already mentioned, you can use it as a general guide to understand yourself and people around you better, OR can employ it to foresee the probable opportunities/challenges, and consequently handle them well – all through the year 2023 and beyond. You may also gift this book to your loved ones. Ganesha wishes you luck, and hopes that you will utilise this book, His gift to you, to the fullest.

Author's Note

All the Zodiac Signs' descriptions and predictions (barring the articles) carried in this book are based on the Sun Signs and the Western methodology of Astrology. Plus, they have been written and compiled keeping in mind an average reader, who may or may not be familiar with the subject of Astrology and Zodiac Signs. Hence, the implications have been kept simple, and the deductions, general and universally applicable. We, thus, deliberately avoid loaded, text-book terms and specific nuances.

Beside the Sun Sign - other planetary aspects exert significant influence on an individual, playing a vital role in shaping his future and life. An individual is often a sum total of these (and more). And, although Sun Signs do make a great contribution, they are duly assisted by other cosmic aspects. The Sun Sign descriptions and predictions, thus, given in the book *Your Zodiac Horoscopes 2023* are largely general in nature. They do not take into consideration Astrology's other specifics.

Have you ever wondered why your Capricorn friend is not as much of a calculated money keeper as a zodiac description says? And, why do you think your Libra mom gets too hasty in taking her decisions, when all she is supposed to be is balanced? Well, as aforementioned, besides Sun Signs – which are determined by one's Date of Birth – there are other factors, as per Astrology, which shape a person's overall personality.

That is why - you may have noticed that Astrologers ask for your Birth Time to create your Personal Horoscope/ Janam Kundli.

Thus, while reading your predictions, bear in mind that, although, Sun Signs guide us in creating near-perfect predictions for the year 2023, there is always a possibility of discrepancies. Besides, for all practical purposes, not all individual nuances can be covered within the scope of a book. Keep these important points in mind, as you go about enjoying this vastly useful book. In your course, you shall see how, subtly yet powerfully, these insights improve your life and its various aspects.

Again for practical purposes, we have, at different junctures in the book, used the alternate symbolic names of Sun/Zodiac Signs. The Ram stands for Aries, the Bull for Taurus, the Twins for Gemini, the Crab for Cancer, the Lion for Leo, the Virgin for Virgo, the Scales for Libra, the Archer for Sagittarius, the Goat for Capricorn, the Water Bearer for Aquarius and the Fish for Pisces (with the exception of Scorpio). In no way, do we intend any offence on the people of any Zodiac Sign by employing these names.

Lastly, please note that the Zodiac Sign pointers and Yearly predictions given here are in NO way a substitute to your personal discretion OR a professionally done Natal Chart/ Janam Kundli (Personal Horoscope) reading.

Live and let live!

The Zodiac Mysteries

The Sun is the largest celestial body in our solar system. As per Astrology, the Sun signifies the Soul. No wonder it holds a place of pride, when it comes to understanding and interpreting a birth chart in astrology. Of course, other vital planets and their positioning in a Horoscope decide the course of one's life. But, the importance of Sun cannot be over-emphasised. Western Astrology lays a plenty of emphasis on employing Sun's positioning and its relation with other planets in determining one's characteristic traits, features and even future trends. Sun is said to exert a major influence on one's personality and personal life, and also determines one's choices and preferences.

Based on the entire Zodiac, there are a total of 12 Sun Signs, also referred to as Star Signs in myriad literature. They are based on one's Date of Birth, and take into account the aforementioned fact that the Sun is indicative of, to a great degree, one's personal qualities, tastes, preferences and choices. Although a division of qualities based on Sun Signs is seen as too broad by many, it still gives a fair view/ idea of the likes, dislikes and lucky charms of people of a particular set.

Now, each Sun Sign may have any of the three main qualities – Cardinal, Fixed or Mutable - four Sun Signs fall under each quality. Some of each Sun Sign's inherent traits may also be traced to these umbrella qualities.

Cardinal Signs are – **Aries, Cancer, Libra, Capricorn**. These Signs are seen as active, enterprising and innovative. Noted for their leadership qualities, these Signs are NOT necessarily dominant and overpowering. People of these Signs would rather *make their presence felt* with calm authority.

Often referred to as the organizers of the Zodiac, the Signs that fall under the **Fixed quality** are **Taurus, Leo, Scorpio and Aquarius**. Quite resistant to change, people under these Signs tend to be stubborn, intense, steadfast and fiercely loyal. Freedom loving, they usually turn detached and reclusive (usually with the exception of the gregarious Leo), when their personal space is invaded.

The four **Mutable Signs** are – **Gemini, Virgo, Sagittarius and Pisces**. All the four mutable ones tend to be excellent communicators, and are seen as versatile and adaptable. Networking and inter-personal skills may safely be called as their forte. The natives of these four Signs tend to be somewhat self-absorbed.

The Zodiac Elements and Colour Palette

Elements

The popular astrology takes into account four elements – Fire, Air, Water and Earth. All the 12 Sun Signs can be classified under these elements such that there are three Sun Signs under each head -

The Fire Signs – Aries, Leo, Sagittarius

The Earth Signs – Taurus, Virgo, Capricorn

The Air Signs – Gemini, Libra, Aquarius

The Water Signs – Cancer, Scorpio, Pisces

Astrology and Colour

Colours are important to us, and they do have an impact on us. They fill the otherwise mundane life with excitement, zany and beauty. Colours are said to have a marked effect on our sensibilities, feelings, moods etc. That is why there is a noted alternative therapy called as Colour Therapy. Surround yourself with compatible colours, and see the difference yourself.

Various tones, moods, qualities and feelings can be associated with colours or colour groups like Reds are warm, Blues are cool while Greens are said to induce restfulness, and white is said to augur clarity of thought.

When it comes to the connection between colours and astrology, different colours have been associated since times immemorial with various Zodiac Signs. The connection is largely made based on the elements and qualities linked with the Zodiac Signs, and also on the personality traits associated with these signs, elements and qualities.

One can choose the colours and colour mixes based on their Zodiac, their element and/ or their complementary nature. Elements which naturally foster each other are said to be complementary in terms of colour palette too. So, you will see that the colours associated with the Earth Signs and the colours associated with the Water Signs will be

related, and same goes for the Fire colours and the Air colours, which are said to enliven each other.

Now, using or bringing in a compatible colour scheme at all times can be tricky, especially if you feel stuck due to professional or conventional reasons, and cannot suddenly introduce an eclectic colour scheme into your life. Firstly, note that surrounding yourself with a good, compatible colour is important, if you are looking to benefit from the therapeutic and astrological properties of colour. But, how you do it is best left to you only, which means that it could be done in any which way you find suitable. Add colour to your surroundings with the aids of home décor, paint on the walls, paintings, flower arrangements, aquarium or simply with clothes, accessories or colourful additions at your workplace desk.

The Fire Signs

The three Zodiac Signs that subscribe to the element Fire are Aries, Leo and Sagittarius. Active, enthusiastic individuals of this group tend to be quite assertive and vigorous. The people under this group, in these three Signs are not the ones to be easily deterred by the blows of life. Always striving to rise above the mundane and swim upstream, these Zodiac Signs are the initiators, and don't hesitate in putting their imagination to creative reality. Fire Signs gel well the most with the signs under the same group, yet they also tend to connect with the Air Signs. Fire and Water do not make a good mix, and hence signs of these two groups tend to not connect well. As far as the Earth Signs are concerned, Fire Signs tend to have an average to decent amount of tolerance for them.

Associated Colours

All Fire Signs can be most associated with the varied colours related to the fire itself. So, be it flaming reds, inviting tangerines or shades of yellow, Fire Signs tend to relate to it all.

Aries

The Aries-born is a restless, active and courageous individual, and thus associates most with the brightest or rather deepest of the colours in the Red family. So, all kinds of reds - crimson, scarlet, brick-red, tomato red, vermilion and even pillar-box red – work for them. Aries is also the ruler of these colours.

Leo

Sun is the ruler of mighty lions, the Leos – the intimidating leaders of the Zodiac, or so they would like to believe! Hence, the colours most associated with the Lions are sunlight colours – yellows in all shades and hues, orange, tangerine, gold, burnished golden, bright yellow of daisies and sunshine.

Sagittarius

The Archer as a Zodiac Sign is ruled by the largest planet Jupiter – the planet of deep, profound thought, analysis and knowledge. Thus the colours associated are the colours of Jupiter – deep yellows, mustard yellow, greenish yellows, and even indigo, deep blue etc. Darker shades of red like maroon etc. are also associated, and even the colours that are formed by combining reds with the tinges of blue and yellow – purples, violets, aubergine etc.

The Earth Signs

Cautious, practical and methodical in their approach and attitude, Earth Signs represent the ground reality in the Zodiac. Down-to-earth with a conservative perspective and a subtle, often subdued taste, the Earth Signs – Taurus, Virgo and Capricorn - tend to be the flag bearers of everything that's stable, earthy and realistic. Their understated preferences and high regard for quality, durability and relevance are mirrored in the way they carry themselves. Often the ones to be the most well turned out amongst a crowd, Earth Signs value their pre-set goals, materialism and wealth, and have a genuine respect for people who manage to carve a niche for themselves. Impulsiveness doesn't come naturally, even though it's desirable that they let themselves go, at times– doing something rash, fun or colourful, just once in a while, won't hurt them!

Associated Colours

The colours of nature and earth tend to be the best for these earthy creatures. Practical colours that have a matter-of-fact appeal work well, and are best carried. However, this doesn't mean that these elegant Signs can't carry off anything jazzy or psychedelic. It's actually good if they become more experimental, and do something crazy once in a while.

Yet, it's unlikely that Earth Signs will dress in a riot of colour from head to toe. But, then slightly offbeat ones will match some zany colours nicely with their favourite, subtle tones. Not that they go wrong usually when it comes to the aesthetics, anyway! Unsurprisingly, Earth Signs tend to have a special preference for pastels and beige.

Water Signs make the best matches for the Earth ones, and the colours associated with Water do well for the Earth ones too. Colours of Fire and Air too may be connected to the colours of Earth.

Taurus

This Sign enjoys the broadest range of colours and a most eclectic, although subtle, palette thanks to its ruling planet Venus. The planet of beauty, aesthetics and attraction bears a special connection with colour in all its forms, and so Taurus too ends up enjoying it. Most pastel colours, pale hues and floral tones work well for the Bulls. So it's pale blues, surf greens and rosy pinks all the way for these exotic ones. In short an idyllic blend of all elements - colours of Fire, Water and Air in their exotic best - works wonders.

Virgo

Virgos move further into the spectrum inching towards the earth tones of dull blues, greens and even yellows, muted beige, mushroom hues, greys and fawn. Although all these colours suit Virgos, you will see them experimenting with other colours too. The self-loving Virgins have a great faith in their own self, which makes it easier for them to break out of their practical mould more than their counterpart Earth Signs.

Capricorn

Next in line is the zodiac's most dignified yet reticent and conventional Sign – Capricorn – the upward moving Goat. They take the analogy of earth and associated colours further into the spectrum. The colours most suited to them are the deepest of the shades of earth – jewel tones in green, blue and brown, mud brown and beige, soot-grey, dark grey and yes....black. The latter ones are best associated thanks to Capricorn's ruling planet Saturn. The take-away, though, for Goats is that they will do best with these colours, but it will not hurt, if they loosen up somewhat and add more tones from the palette of mother earth – an icy blue, an electric green and even a sandstone red won't hurt!

The Air Signs

Cool, light and collected – airy – in short – that's how one can broadly describe the Air Signs – Libra, Gemini and Aquarius. These are the ones who mostly manage to keep a calm, rational and largely detached approach in most emotional of the situations. Not the ones to usually put up a show of their inner feelings and emotions, these signs are active, agile and communicative. Intellectual activities are stimulating for them, and choosing their colours too become something they deal rationally with. No wonder their design and colour choices bear a cerebral perspective. Air Signs gel well among each other, as each of them is chatty, communicative and likes to be with right people at the right place and right time – too perfectionist, but, so what, it suits them! They have an eye for expensive stuff and luxuries of life enchant them. Earth and Water Signs generally find it difficult to associate with Air Signs, as either will not be comfortable with the other in the long run, despite a good start.

Associated Colours

Air is colourless and transparent to a great degree. The colours of sky and translucent tones may also be attributed to air. Same goes for the Air Signs – the colours related to air apply for Air Signs too. So, it's hues of sky, changing colours of horizon, whites all can be associated with the Air Signs. Thumb rule is 'light' and 'cool'. Earthy tones and deep, mysterious hues will not find favour here!

Libra

The balanced ones – Libra find it easy to rationalize during trickiest of the life's issues. No wonder they opt for the most professional, coolest and balanced of the hues. So, it's blues and shades all the way for this Air Sign. Medium shades of blue, translucent greens and light, even whitish blues and pale pinks – all are great. Although the Libra are born with an inherent charm, garish colours are not carried well, and so says the astrology. So, it's not Sagittarius's dark blue or Taurus's pale, pastel one, but the mid-hue of blue that suits a Libra. Libra and Taurus – thanks to their shared ruling planet – Venus, display similarity in this respect.

Gemini

The ruling planet of Gemini, Mercury, is quite good an explanation for their mercurial temperament. Confused? Don't be or else forget understanding a Gemini! There are extremes, and they like both of

them. Twins' design and colour choices reflect the same. Their associated colours stretch from the pale yellow of Mercury to the transparent blues of sky. Colours of the Sun, varying colours of horizon – scattered pink of the twilight and dull grey interspersed with golden and blue of dawn and aquamarine blue all find favour with the Twins.

Aquarius

Electric blue – the brightest of the sky colour family – finds the place of pride in a Water Bearer's life. The colour is a reflection of this Sign's startling persona – difficult to explain reactions even when pleasant, unexpected responses and the overall mystery. Jade green, royal blue, turquoise, deep surf blue find favour with Aquarius. And, so do deep grey and black! There's a nice analogy that can describe an Aquarius' taste in colours – it's as changeable, unexplainable and myriad as the changing shade of clouds and sky would be, if one moved towards the outer limits of atmosphere, on the verge of entering the depths of space!!

The Water Signs

The trio of Cancer, Scorpio and Pisces form the Water Signs. All three share their emotional excesses and sensitivity, yet they are not the ones to be bogged down by unpleasantness and fears. It's, in fact, pressure and responsibilities, which psyche them out making them withdraw and under-perform. Yet, all the three Signs can be credited for excellent intuitive prowess and an internal strength that's seldom seen. No wonder they tend to be the absorbers of negativity and others' troubles and fears. But, it's their strong emotional responses, which can be quite draining, and that is why these Signs need their private space and seclusion to recharge their emotional reserves. Don't nag a Watery Sign, if he/ she is withdrawn! Their notable spirituality and perceptiveness is well known. Water Signs do well with the Signs of the Earth family, as the earth tends to lend form and structure to water. Colours related to the Earth Signs, thus, do well for the Water ones too. Fire and Air are not compatible with Water – while the Fire is absolutely incompatible, Air may have initial pleasant moments, which don't last long.

Associated Colours

It goes without saying that colours related to the depths and mysteries of nature in general and water in particular associate well with the Water Signs. So, it could be any colour ranging from blues and greens of

water to the burnished golds and deep reds of a sunset. Muted, pale tones of earth brown may not suit their taste, but stark white, off-whites and silver make their day.

Cancer

The most watery of the three Water Signs is Crab, and that is why they bear the maximum affinity to the hues of water and, not surprisingly, sea – their home. Beach lovers, malleable and reclusive, they love the marine colours, but it's the colours of Moon that find maximum preference with them. That is because Moon is their ruler, and is also the one that makes them gentle, confused and dreamy. The lightest shades of blue – surf blue, the blues of the ocean foam and the blue of the morning sky – gentle and polished – work the best. Same applies to the greens – never the electric or gaudy shades, but the sea greens of the pastel variety. And, what rules, obviously, is White – and silver and a few smoky colours associated with moon, full-moon and even no moon!

Scorpio

Scorpio is different than the two other Water Signs in more than one way. The most mysterious Sign of the Zodiac is deeply associated with the darkest and deepest shades – be it reds, maroons, violets, browns, golds - all thanks to Mars, the planet closely associated with Scorpio. Pluto, the coldest and the farthest planet, the ruling planet of Scorpio also bears its effects on their design and colour sensibilities. Hence, the affinity towards dark! And then, there are the colours from the water palette – greens, blues and the likes – but all in their darker hues.

Pisces

Pisces picks up from where the Scorpio stops! So, this dreamy, romantic and submissive Sign gets the hint of reds and violets from Scorpio, and adjusts them to suit its sensibilities. Thus, it's fuchsia, mauves, lavender, pale purples and pinks – all hues of pink rather; it's the most feminine and romantic colour after all – for Fish in the colour department. And, then there are light, bright green, aquamarine and sea-blue, which suit them quite well, and bring out their best features. Whites, creams, peach and dreamy tones of various colours also attract the design sensibilities of a Fish. All in all, a splash of colour, but all mixed and coordinated to the aesthetic t.

Zodiac Signs in Love

Aries : Vitality is the second name of this proverbial infant. Aries knows how to celebrate life with his candour, optimism and love for adventure. Probably that is why despite being the self-centred, self-absorbed, impulsive babe, Aries is so lovable, and manages to win admirers with a surprising ease. Love for them is a given, a necessity that has to be fulfilled. They demand it as if it is their birth-right. They will go to the least probable places looking for love, especially if it catches their fancy. When in Love, they tend to be very loving and mindful of their loved one's needs and demands. Happiest to pamper with extravagant gestures, they see love as an accomplishment. The babe in Aries secretly craves a lot of babying, and yearns that all his desires be fulfilled at the first instance. Aries need constant reassurances in love (though, they usually are too egoistic and smug to accept!). A happy and satiated in love Aries is generous and cheerful. While, a neglected in love Aries shall shout, cry and throw tantrums. Besides, an unhappy in love Aries may develop a tendency to get bored with people too soon, may even become a philanderer.

Taurus : The healthy, cherubic baby in Taurus is loved and admired by many, and yet many are afraid of his stubborn tantrums and sudden, unannounced grumpiness. The toddler-in-making understands and appreciates the love and security net provided by his family, and lays supreme importance on both, as he needs them for his sustenance and happiness. Anything that brings the familiar comfort and warmth is valued and clung on to by Taurus. Love for them is affection in its primal, physical, visible sensual sense. Love to a Taurus ought to be pleasurable and available, when he needs it. And, he likes (and knows) to both give and receive love. The deeper, more subliminal aspect of love may not be understood by the Bull. Very steadfast and loyal, Taurus natives value material comforts and security, and get drawn to people who have and can provide for them. When in Love Bulls are devoted. Their understanding and display of love, though, may lack depth or tenderness. Traditional and least change-oriented, their relationships too may mirror their personalities. Rejection and betrayal are abhorred!

Gemini : The toddler in Gemini understands, appreciates and values his autonomy and new-found independence. He can speak and express, and is no longer dependent on others for fulfilment. Communication is new and very very enchanting! This is intoxicating. Most Geminis love to talk.

And, manage to leave others smitten in the process. Love for them is conformity that does bring happiness and pleasure, yet can be a hindrance to complete, uninhibited freedom. In positive sense, love becomes an enjoyable bond for Gemini. When negatively viewed, it may cause resentment, as the Twins may see love as restrictive. When in Love, Gemini can be versatile, entertaining, inquisitive and stimulating. Their candid, amicable personalities make them great companions. Spending hours simply chatting and interacting with their loved one is always on their agenda. Geminis, however, are prone to bouts of restlessness and recklessness. Impractical, impatient and inconsistent when under such spells, they may attempt to run away from love. Also prone to the feelings of duality about love and relationships – one moment craving the pleasure, amusement and warmth the love brings, and the next moment resenting it with full force.

Cancer : The Crab craves change, yet is scared of it. Not an adult yet, the adolescent hidden in Cancer is enchanted by the grown up, mature world, while the security net of his family, the familiarity and safety of his home still tugs him back. The Crab deals with a plenty of emotions, many of which are new to him, yet very real, very deep. He watches others with an eerie perception, and thence develops his famous instinct, his intuition. Love for them is the emotional security net, a need that is above all, and that, ideally, should come from a familiar corner of their lives. This great need for love evokes in them a deep sentimentality. When in Love, they love with all their senses, all their might – completely and irrevocably. They make gentle, sensitive, caring and loving mates, often sensible and cautious. And, they need an equal amount of, if not more, love, attention and tenderness back from their partner. Crabs can't handle hurts, though – their silent anger is well-known, and so is their tenacious shell. They need their quiet moments to recharge and refuel their drained emotions.

Leo : The king Leo is regal, proud and confident – of the self, of the ability and of his knowledge. Courageous, large-hearted and compassionate, Lion is full of youthful enthusiasm and vigour, often the proverbial performer. The symbol of idealistic young blood, the bright, warming sunshine and the spring bloom, Leo loves gazing at himself, admiring his handsome features, dogged drive, keen perception, surprising candour and admirable wit. Love for the Lion is romance – bright, frothy and beautiful – akin to the fairy tales. Lion loves the idea of 'being in love'. This feeling for Leo may not always be about loving

someone else, but oneself and the whole world, at large. In love, the Leo are supremely ardent, affectionate, loving and amorous. They love pampering their loved ones with open displays of affection and magnanimous gestures. In return, they expect, rather demand, ample doses of praises and thank-yous. On the flip side, although, Leos possess all the qualities of a great life partner, they can be taxing as lovers. Besides, given their vanity and social popularity, they may end up neglecting their partners or drift towards multiple relationships.

Virgo : Conscientious, dutiful perfectionists, Virgos are meticulous and prim with a competitive, survival instinct so marked that it dominates their life and choices. No wonder that they are said to signify the realist young adult donning the mantle of maturity and determination. Capable of dissecting, de-constructing and analysing almost everything, Virgos believe in submitting to the norm for the benefit of duty and practicality. Love to them is a mystery to which they are often happy and content to surrender. On the edge of awareness, yet not willing to know further, Virgos may believe completely in what they see. Completely devoted to their relationships, they do keep their practical antennae up, at all times. Besides, their constantly working minds may not allow them to let their hair down. When in Love, they are gentle, dutiful and loyal. They love taking care of their loved ones, creating perfect havens and pampering along the way. Dependence is abhorred, and so are sloth and disorganisation. Virgos' vigilant, fretting selves rarely miss anything. Becoming overly critical of partner's flaws is a possibility with Virgos. Jealousy and competitiveness too may mar Virgos' relationships.

Libra : Libra is capable of understanding and appreciating myriad facets of human existence and the world at large. Libra knows that the key lies in moderation, in finding and internalising the fine art of balance. Existence comes to assume a wider perspective in the Libran world. Love to them is, thus, harmony. Mating of minds that is balanced – not extreme in any way, leading to happy, pleasurable results. In Libra's poised, symmetrical world, love is also a lot about beauty. These people know when they have fallen in love, and like it to come with all the frills attached -wine, roses, candles, pink hearts et al. However, they may rarely get to know – why. Getting drawn towards beauty, elegance, money, success, fine things in life, lifestyle, they may forget/ fail to appreciate their partner for what/ who he/ she is. When in Love, they make for attractive, charming, tender, committed and interesting partners. Objective and fair, they may take their time to say yes, but

once they have made up their minds, they seldom stage a walk-out.

Scorpio : Passionate, sorted, capable, mature, keenly intuitive, yet insecure, restless and secretive, Scorpios are as mysterious as they come. This emotional and magnetic Water Sign signifies the mature human being who already knows a plenty, yet is able to perceive that there's a lot he still hasn't seen. And thus, he desires to see and find it all. Scorpio is fiercely protective of his own self, and of his loved ones. Any hurt and Scorpio reflexively stings back – revenge, instant and complete is the name of the game in his raw, intense world. Defeats motivate him, and hurts harden his resolve to bounce back. Love for them is an all consuming desire for oneness that engulfs their lives, and greatly affects their opinions. To them love is supreme, worthy of any sacrifice, even when expressed and understood in a more physical, carnal way. In love, Scorpio is potent, protective, gentle and loyal. In the beginning, though, they may play it cool. Passionate to the core, these magnetic and powerful beings are sure to draw attention and appreciation from myriad quarters.

Sagittarius : Restless, inquisitive and philosophical Sagittarius find it hard to believe anything/ anyone at the first go, and hence take time to form opinions. Born with a unique spirit of inquiry, they (with their penetrating logic and curiosity) aim to unearth the mysteries. Candid as they are, in their attempt to know and see, they may end up asking/ saying blunt, embarrassing or rude things. They can be optimistic yet sceptical, fanatic yet atheist, and tactless yet serious! Love to them is true, eternal yet something that they may never see or feel, and thus needs to be found, investigated, restored or retained, before it is lost forever. No wonder, Archers are insecure, even though their insecurities are carefully masked under the garb of garrulous, self-immersed, blunt exteriors. Scared of reality (and even shocked beyond repair by it), they seek refuge in idealism. Unable to look inwards, so socially tuned in they are, they may fail to achieve true fulfilment. In love, Sagittarius are cheerful, optimistic, communicative and adventurous. They are their happiest in a new relationship, as there is so much to find, so much to know and so much to see.

Capricorn : Hardened by experience, Capricorn is stable, steadfast, responsible, driven and dependable. However tired or weary it may be, the Goat is never scared of leading the way for others or taking a new responsibility. Gifted with great personal strength, organizational skills

and a perfunctory sense of practicality, they believe in carrying on when others have long stopped or discarded a task. Love to them is a mutually satisfying exchange that brings the needed security, peace and contentment. It may not be the idyllic, romantic, liberating feeling as in the movies, but is definitely important. Capricorns' stern exterior and Saturnine ways hide their gentle, tender side. Yet, they understand that love means being able to forgive, and rise above the human flaws. When in love, they are dependable and caring. Not the ones to believe in excess of emotion and display, however, they tend to be controlled, measured, even cautious in their approach to love. They may even be called selfish and callous. But, let a Goat open up, and you may have a very interesting partner beside you, who does have a sense of humour (even if tinged with sarcasm and irony), and who is capable of appreciating finer things in life.

Aquarius : Novelty enchants Aquarius, and the modernity infuses life into them. Aquarius firmly believe that they know and can infer. Liberal to the point of being peculiar, even eccentric at times, yet so wise, they are a mystery to many. Fixed in their own personal priorities, style and opinions, they crave, propagate and encourage change. And, hence comes the duality, which surprises other people. Love for them is cool, impersonal yet unselfish and enjoyable. To the humanitarians of the zodiac, love is universal and ought to be selfless. In love, Aquarius is communicative, imaginative, witty, candid and friendly. The mate of this intelligent person will find great fun in spending time with him, as an Aquarius is always full of beans – innovative, bubbling with novel ideas to do something different and unconventional yet fun and cosy. Usually loyal (especially when they have found the 'one'), and supportive of independent partners, they themselves guard their independence fiercely. On the flip side, since many Water Bearers have their hands full, their social calendars chock-a-block, they may get detached, absent-minded and unmindful of their partner's needs. And, when confronted, they may simply refuse to cooperate.

Pisces : Dreamy, romantic healers of the Zodiac, the Pisces are kindred souls – sympathetic and modest. Often quiet, slow and measured, the proverbial 'old souls' seem to possess a deep understanding of life, especially when seen from a distance. Ones who come across as detached and passive, they may seem troubled to some and enchanting to others. Some Pisces may want to abandon it all and leave, while others may completely give in to the epicurean, hedonistic romantic

ideal. Love is a selfless emotion to them, a miracle that completes, creates a 'whole', and requires entire submission of the self. In love, Pisces are is nurturing, intuitive, selfless and compassionate, yet frustrating at times. Rarely willing to explain his stance and quite fixed in opinions and thoughts, they are capable of evoking a variety of feelings, broad enough to cover the entire spectrum of extremes. They avoid, rather shun, confrontation and make submissive partners. In healthy relationships, they flower, blossom and are capable of attaining their poetic, philosophic and creative best. Wrong experiences, on the other hand, may divert them towards the irrevocable routes of addictions, alcoholism, promiscuity and wasting.

Zodiac Sign Preferences

Know the preferences of various Zodiac Signs. Find out which one makes the best shopping partner, and which one of them would make the best gym-buddy! Also find about the preferences of various Zodiac Signs' natives in terms of sports and health.

Aries: Initiating any activity comes naturally to these initiators of the Zodiac, but the real challenge for them lies in sustaining interest in it. Energy, initiative and enthusiasm are a given, but so are impatience and wavering attention, when it comes to Rams. An Aries loves to be pronounced as a fitness freak, and will also love to indulge in myriad sporting and physical exercise activities. But, then, they may not really be very consistent with these 'gym and playground' escapades. However, given their natural ebullience, they tend to excel in sporting activities, especially running, sprints, cycling, biking and high-impact aerobics.

Their choice for auto-mobiles too mirrors their love for everything contemporary, fast and challenging – Aries love to ride a sports-bike or a sports-car. And, whatever they choose to drive, one thing is sure - their 'mean-machine' has to be snazzy! Aries exhibit similar tastes, when it comes to other things like clothes, accessories, jewels and footwear. They will always point at the most in-style and chic jewellery and apparels. So, it's a wise idea to take them as shopping companions – they won't be imposing, but will lend you excellent advice about latest places to shop and trendiest stuff to buy. Have fun!

Taurus: Headstrong and stable Bulls are practical beings, and thus

appreciate the importance of physical fitness and regular exercise. But, then they may find it difficult to implement this understanding, given their proclivity for many other activities and pastimes. Thus, a Taurus may find it hard to divide his/ her activity or reading time to get going on a treadmill. However, when it comes to sports and fun activities, they more than make it up for any lack of physical exercise. They love to put their endurance and stamina to test by indulging in activities like rowing, tug-of-war, canoeing, mountaineering, hiking, trekking, travelling the world and gardening. On the sports front, basketball, volleyball, cricket, golf, rugby rule for Bulls.

Materialistic Bulls like to firmly believe that their possessions, be it mundane items like garments or their much-loved auto-mobiles, are the best. They may not always be, though, yet Taurus won't prefer knowing that. In the jewellery department, understated yet classy stuff rules, and yes it will be expensive. Think diamonds and timelessly chic pieces! If going shopping, take along a Bull, if you are looking for something really different. Their love for the 'eccentric' often makes them shop for stuff that's truly class-apart. So, do take their advice when looking to stand apart in a crowd.

Gemini: Wiggly and restless Geminis like sports and physical exercises, but not as much as partying and socialising. Jogging, spinning, dancing and fun-games top their list of ways to remain fit. However, most Twins will manage to have good fun even in a gymnasium. And, that is not because they love toiling on machines and weights, (they hate it rather) but because they quickly find interesting gym-buddies with whom they enjoy hanging out for a post-workout snack! When it comes to sports, anything that is played in pairs catches their attention, so it's badminton, tennis, chess or billiards for them, all the way. Competitive sports and group activities too find favour with the gregarious Twins.

Ample socialising skills lend another excellent trait to Twins – their superior negotiation and bargaining skills. And, they are not the ones to join the 'brand-wagon'. No wonder, Geminis, especially women, make brilliant shopping companions for budget or street shopping trips. Junk jewellery and knick-knacks are not favoured items on their shopping list, though. In fact, otherwise fun loving Geminis are absolutely conventional, practical and utilitarian in the shopping department. So, they will also not let you go over-board! Their non-fussy preference for functional and economical reflects in their choice of vehicles too.

Cancer: Drive to match their sensitivity is what is needed by Cancers, if they wish to achieve what they dream of! Chances of you finding them cribbing that their efforts are not showing desired results are high. Why? Irregularity and lack of passion, maybe! However, give them a dedicated gym-buddy, and see them making a beeline for their workout, even early in the morning. An emotional connect in form of a friend or a partner can provide the necessary encouragement to propel the Crab towards his/ her fitness goals. They can also be instantly lured by an outdoor water sports expedition. Being water babies, Crabs love to indulge in water polo, boat race, para-sailing, ice-hockey and skiing.

Most Cancers are not regular shoppers, but once they get into a mood for it (temperamental Crabs are driven by their whims), nothing stops them. Shopping is a liberating experience for them. They just wish to relish the experience when shopping. Shrewd beings, they, however, manage to get the best value out of their expenditure. Non-intrusive, excellent shopping partners, they will never remind you of how much you are spending, though. They like to shop for precious jewellery, and their collectibles resemble the treasures of the seas - pearls, precious stones rule. Not given to outward appearances, a Crab may not worry much about acquiring swanky cars or vehicles, though. Rather, they would be more than happy driving their cherished old bike or car to which they will be emotionally attached.

Leo: To channelise their vast energy and enthusiasm in the right way, Lions prefer activities that'll let them excel physically. Conventional ways of burning calories won't find much preference here, though. Thus, contemporary and 'different' routines like kick-boxing, aqua-aerobics, ballroom dancing or hot yoga will suit more to their idea of getting and remaining in shape. When it comes to sports, Lions again have aristocratic tastes. Thus, they prefer amusing themselves with sports attached to royalty. Hence, golf, yachting, polo, horse-riding and car racing suit well the Lions' idea of grand entertainment. Gambling and visit to casinos are also distinct possibilities.

Unlike the former Zodiac Sign Cancer, the Lions are all for outward appearances. Given to a certain pomposity, Leos like to make bold, brazen style statements, and that applies to their choice of clothes, vehicles and jewellery. If their pocket permits, the Lions will love to become proud owners of a Lamborghini, a Rolls Royce, a Bentley or even a custom-made version of a vintage car. You'll see them picking up a

chunky neck-piece, a gleaming solitaire or a beaded bracelet, rather than a delicate pearl ring, when jewellery shopping. And, if they ask you to join them for a shopping trip, go ahead – you'll love the courteous treatment and ebullient companionship. Reverse the situation, and the results may not be as exemplary, though!

Virgo: Loyal and sincere, Virgins are quite regular at sweating it out. Being one of the most fitness conscious zodiac signs, their idea of staying fit includes aerobics, yoga, jogging or dancing. They are all about the 'au natural' look and feel. Also, besides physically fitness, good health is also about mental rejuvenation for them. Thus, they show a keen interest in games that provide them intellectual stimulation, apart from their oft-favoured basketball and gymnastics. You'll also see them driven towards natural ways of remaining healthy, and that includes eating and sleeping well.

Perfectionists to the core, Virgos are meticulous even when it comes to shopping. Here, they exhibit a certain duality, though. On one hand, they may simply pick up what they like without any prior planning, while on the other hand they may look for a bag/ watch at five different places, before zeroing in on the 'One'. Appearances matter, but so does the 'value'. Virgins will buy jewellery only in two cases – one, if it's a good investment, and/ or second, if they really, really like it. No wonder, they have a special preference for precious-metal jewellery and precious stones. For imitation pieces, they go for semi-precious stones, chunky, psychedelic or ethnic look that'll make them stand out. As for the vehicles, Virgins have a bizarre choice, especially if they can't afford an expensive model they fancy. They will prefer to buy a remodelled version than use a run-of-the-mill budget car/ bike.

Libra: Balance and poise – these are the two mantras around which a Libra's life and preferences revolve. They seek balance in all aspects of their life, and health and physical fitness are no different. Meditation, yoga, other calming and balancing forms of exercise appeal to them. So, it's not only about burning calories, but also about 'lifting spirits and feeling great'. Unconventional exercise forms like Tai Chi, Kalaripayattu and Kendo shall find favour with a Libra. Relaxing/ unwinding and having fun are vital to a Libra for overall fitness – after all it's all about balance. When it comes to sports, they are highly fond of athletic-activities that would let them test and hone their balance. So, it's gymnastics, spinning, hurdle-races, handball, skateboarding or skating for them, all the way.

Suave, stylish and often well-turned out Libra natives, surprisingly, do not like to shop. A Libra male is most likely to despise his wife's/ girlfriend's shopping expeditions. Female Libra, on the other hand, may love to buy expensive and designer stuff, but more so for her intimate relations than her own self. However, you can consult them for tips on latest fashion and trends, and they shall happily oblige. And, don't forget, they love receiving classy gifts – chic and delicate jewellery included. Buying or wearing jewellery, otherwise, isn't a preference here. Any jewellery bought by them is merely for investment purposes. They carry the same attitude, when it comes to their auto-mobiles. In fact, they would rather have their vehicles passed on to them as a legacy.

Scorpio: Intensely competitive and passionate in whatever they do, Scorpio natives tend to look for the ways to enhance their physical prowess and mental strength. Besides, anything that intrigues and energizes them is also good enough to keep them going. Thus, when it's about physical training, these aspects act as the guiding force. Vinayasa-yoga, power-yoga, rock climbing or multi-gym activities fit the bill perfectly! In the sports department, intense athletic activities or marathon races, which test their endurance and stamina, are their idea of fun and play. Scorpios are also, many a times, unbeatable at games like chess, monopoly. These are the sports that not only require a definitive strategy, but also give them a chance to flaunt their expertise. And, if that's not all, the Scorpio may choose to zoom away in a powerful bike or a time-tested car at the end of the day to refresh himself/herself. Their chosen vehicle will, however, have to be sturdy, reliable and easy to maintain.

Attractive and often quite poised, Scorpios have a distinct and definitive taste in clothes. They have set choices, and don't like anyone giving them any advice on it. The wardrobe of a Scorpio woman is usually very tasteful, and may even be a cause of envy for many. Most Scorpios have an exquisite choice in both clothes and accessories, and many of them may be the proud owners of some of the finest and rarest jewellery pieces and/ or precious stones. Tried and tested brands rule, but not for the sake of exclusivity, but because they guarantee longevity and trust. No wonder, most Scorpio women worship shopping. However, many men of this Sign are, more or less, indifferent to the shopping activity. However, they will readily pay the bill, without being grumpy or inquisitive about your purchases. They may not be very appreciative too!

Sagittarius: A powerhouse of energy, an Archer displays great strength and stamina, and tends to take his/ her workout routine a tad too seriously. They have the knack of getting down to the slightest of the details, and will meticulously plan each of their moves. Adventurous and always ready to experiment, Archers, however, fail when they overdo this very bit. They flourish the most in a competitive scenario where they get ample chances to boast and make show of their abilities. Adventure, team activities, vigorous sports like squash, lawn-tennis, swimming, horse-riding and even basket ball, baseball and hiking/ trekking suit their sensibilities best. If this does not suffice, they like to hit the road to explore new destinations in their posh set of hot-wheels – a Sports Utility Vehicle, maybe!

If the 'best-dressed' Sun Sign award was to be declared, a Sagittarius native would win hands down! The Archers have a knack to pick up just the 'right' objects at the 'right' time. An Archer woman is considered to be street-smart, as she would exactly know what to and from where to buy, and that includes jewellery. Great at bargaining skills, she'll also often manage to buy at the most reasonable rates. On the other hand, Archer men are relatively laid-back, and would rather be patient onlookers, while you shop. Thus, all in all, it's not a bad idea to take them as shopping companions, especially if their interests are as ardent (for shopping) as yours.

Capricorn: No one appreciates the benefits and rewards of an exercise and fitness program more than a dedicated Goat. Capable of first sweating it out on a treadmill before heading for a tango/ jazz session, Capricorn natives will be able to strike a balance between myriad means to keep fit, given they gel with his/ her current set of responsibilities. Weights, cardio, yoga, aerobics or walking in a nearby park - all may be favoured – they just have to fall in line with the Goat's busy work-schedule. And if that's not all, they'll also manage to fit in a trekking expedition, a soccer game or following some natural remedy, but only if time, or rather their work, permits. They also love playing competitive field sports that test their stamina and energy.

Practical and prudent, Goats, often, don't fall in the category of impulsive shoppers. Both male and female Goats are patient shopping companions, and when in mood, they themselves don't mind spending hours or even days (for bigger purchases) hunting for just the 'right' thing. That's exactly what happens when it comes to bagging their

'mean machine' - expect a Goat to create so much fuss that you'll be tired and bored. But, the end result will be so spectacular that you'll be left jealous! However, on most other occasions, a Cappy is too caught up with his/ her work to bother slotting a separate time for shopping, so shopping becomes an extension of day's work! In the jewellery department, the emphasis is on the minimal. Their love for tradition makes them go for timelessly classic or ethnic pieces, and yet it's always elegant.

Aquarius: Ironically stubborn yet pliable, Aquarius natives are, often, careful about their appearance. They like to keep themselves toned and agile, and that's quite possible given their natural charm and poise. However, what they really need is some more discipline and dedication towards their fitness goals. Add some mental/ intellectual stimulation to their fitness routine, and see them sticking to it like bees to honey! Mental health is as important to them as physical well-being. So, activities like Yoga and Pilates find favour with these free-birds. Also, anything that holds a humanitarian cause catches their interest like nothing else does. Charity walks, marathons and team sports are preferred, and so are adventurous sports like snowboarding, wind surfing, sky diving or bungee jumping.

Aquarius is, by far, the best Sun Sign to shop with. Not short on ideas and opinions, Water-Bearers like to go the whole hog, whenever they decide to shop! Their distinct style of dressing – rather, abstract and off-beat – shall also give you many shopping ideas. So, don't hesitate in taking them along – they may appear too tied up/ self-centred initially – but, often, you won't regret their company. When it comes to jewellery, they like to be close to the nature. So, precious stones, shells, cowries and pearls are preferred, and so are precious, gleaming metals. And, that's exactly how they also like to keep their auto-mobiles – glistening and shimmering! Quite possessive about their dream machine, they are proud of their possession, and would love to flaunt it.

Pisces: Most Fish have a tendency to be quite laid-back, so they need a 'real' push to 'exercise'. However, since most of them are quite appearance-conscious, they would eventually do something or other for their fitness. Fascinated by the waves of sparkling water, Pisces natives wish to be close to water bodies for long hours. And, if that water-body is a sea, nothing like it! Hence, besides regular work-out sessions at the gym, a Pisces native may often be spotted at the pool-side/ sea-shore, as

swimming or aqua-aerobics shall turn out to be the most pleasurable ways to burn calories for him/her. Most Fish adore the sensuality of warm water, of floating and gliding through currents. And, this is evident from their special preference for water sports like water skiing, river rafting and deep-sea diving.

When it comes to shopping, impulsive is the word that best describes a Pisces native. They love to shop and gift, and are often quick to pick up items that appeal to their eyes. Nothing run-of-the-mill would be allowed to enter a Pisces domain, though. They are quite selective that way, and prefer to collect exquisite objects. Like, if it's about jewellery, gold rules all the way! Whether it's a trinket or a finely carved necklace, the gleam of gold with, maybe, a touch of their favourite blue precious stones, will be evident! As for their choice of auto-mobiles, not much can be said. They often tend to keep their vehicle, whichever one they have, neglected, and would not send it in wash or repair unless extremely necessary!

DECODING PISCES

Poetic Pisces, the last in the line of the zodiac signs, is as mystical and intuitive as they come. A water-sign in all its manifestation, Pisces can be described in a nutshell in the following words - sensitive, spiritual, scrupulous, stubborn and often sympathetic yet shrewd. Born under the influence of Neptune, Pisces natives are gentle and submissive - at least, on the surface. Compassionate and altruistic, many of them usually remain immersed in the depths of their inner realms.

Ideally speaking, the Zodiac Sign Pisces is said to embody all that is humanitarian and idealistic! These people care about others and the world at large – whether they manage to do something tangible about it or not, is a different thing! Wealth, material acquisition and status are rarely their primary objectives.

Pisces natives also show a marked inclination towards myriad creative fields like music, poetry, writing, drama or painting from early on in their lives. This creative and inventive spirit may also be expressed via their behaviour in relationships. Slightly wary, somewhat scared of the world at large, Fish prefer to be at familiar places and in trustworthy company. They have their own set-patterns of living, and choose to be surrounded by genuine people whom they trust. Unfamiliarity is a no-no! But like others, they too cannot avoid such situations and people – this makes them uncomfortable and fidgety. It is here where their creative pursuits come to their rescue.

The creative outlets like music also work as a bridge for the Fish - between reality and fantasy. Their artistic ability makes them popular amongst people, which is great as this makes the Fish feel comfortable and confident. Given a choice, most Fish would choose to remain oblivious to the world at large, coming to *life* and in action only when a loved one, a friend or an animal needs care, attention or help. But, it is not possible to live in a fantasy world, and prosper, and that is where the battle of the Fish's life starts.

Hopeless romantics, most Pisces natives have this impractical, dream-like vision of life that invariably leaves them in a soup. Unable to express themselves lucidly and firmly, the Fish may, thus, often be trampled over or ignored in the cut-throat, materialistic world. What makes it even more difficult is that most Fish are, contrary to the popular belief, quite rigid about certain things – like their own perception of people or things,

certain attitudes and habits, a certain way of life etc. No matter what, they won't budge!

Tolerance may be an innate quality of the Fish, but sometimes they may be too tolerant for their own good – they may refuse to retaliate or fight back even when wronged. Is this laziness or cowardice? Maybe, because the Fish are also credited (or rather discredited) for being inordinately lazy and passive! Their laid-back attitude in life works against them, as they may lose out on good opportunities, or may become direction-less.

Fish also run a danger of appearing confused, vague and indecisive. And, that is because with their rose-tinted glasses on, they often fail to be as strong and direct as the situation demands. Escapism, over-indulgence and inability to save money are other pitfalls of their impractical and stagnant attitude. Avoiding swimming upstream is not an option for the Fish. Thus, it is important for they become stronger, affirmative, more balanced and proactive in their approach, outlook and attitude. They also need to remain in sync with the changing time and world. In short, adaptation and evolution only shall pave the way ahead!

THE FISH IN THE PROFESSIONAL AND PUBLIC DOMAIN

The Fish are often disillusioned about their goals and ambitions. They require proper guidance and direction. With some direction and a better focus, the dedicated and loyal Fish can do immensely well in professions related to research, studying, teaching, preaching, reading and writing. Their area of interest often is the work that is philanthropic or social in nature. They like to touch others' lives or be the 'good doers' of the world. Many Pisces are involved in professions like teaching, journalism, writing, and social work, medical and para-medical services. People involved in humanitarian activities are often their role models. Sooner or later in their lives, they try and get associated with organisations working for the betterment of the society.

Thanks to Neptune, their ruler, the Fish is also hugely drawn towards spirituality. Thus, professions related to spirituality, self-help, motivation, praying etc. may interest them. On the other hand, remaining withdrawn from the reality may make them disinterested in or detached from their work. Travelling to different places, studying various cultures and exploring life can help the Fish gain a better perspective in life, by the way of which they can realise their true potential, derive knowledge and lead a more fulfilling life. Another definitive window of professional opportunity for the Fish opens up in the field of arts and media. They

can excel in any of the creative fields, given they put their mind and heart into it. Advertising, copy writing and public relations are the other areas where a Fish may succeed.

THE FISH IN FINANCIAL AND MONEY MATTERS

The Fish are calm and easy-going as far as the financial matters and financial security are concerned. Making money and acquiring wealth is often a secondary aim. They tend to rely on their intuition and instincts, even when it comes to earning money. In short, they prefer to go with the flow.

Prior planning and taking initiatives would be too much to expect out of them. Often, they lack aggression and passion to pursue financial goals. In fact, they can be quite passive when it comes to the financial matters. Service to humanity gives them ultimate peace of mind, happiness and contentment, and they may lose out on lucrative opportunities in their bid to lend a helping hand. There is not anything wrong in their stance, but then, excess of anything is bad!

Fish are also blamed for being too careless – with their own or even others' money. They are also alleged, on more than one occasion, of being stingy and parsimonious. Truth is that they may continuously deal with a lack of funds or security, and that may make them rather difficult with money matters. If they don't have, from where will they shell it out! Often unable to plan properly or invest well in time, Fish may be left with only the little of their earnings. However, with some balance and a definitive tug at laziness and submissiveness, most Fish can pull themselves out of these recurring financial crunches.

THE FISH IN MATTERS OF HEART AND INTERPERSONAL RELATIONSHIPS

True romantics, the Fish in almost all their relationships are loving, affectionate and intuitive. They don't mind going overboard while expressing their love. Genuine and sensitive, they care for and value their relationships.

Liable to fantasise and create situations in their head, the Fish may also place great demands on their emotional relationships. Temperamental beings, they need an equally sensitive and caring partner. They may withdraw and hold back their emotions, and the situation may get tricky, at times. Ones in love with the Fish shall need a plenty of time and understanding to comprehend, decode and adjust to the watery Fish's

inconsistent and capricious reactions.

Ideally, the partners to the Fish ought to be practical, self-assured, headstrong and grounded. When reality shakes up the Fish's fantasy world, remember that your Fish needs to be handled with care. A practical partner to the Fish needs to be gentle and slow, otherwise the danger of pushing the Fish deep into an abyss of negativity, detachment, disloyalty or at the very least, non-reaction, is high.

Romanticism may blind the Pisces. They have high expectations from love. They may have a tendency to become too attached and dependent on their partner/ spouse. This may turn out to be quite overwhelming for their partners. It is here where the responsibility of the spouse/ partner of a Pisces comes to the fore. Since, they have had the good fortune of getting showered by the immense and crazy love and adoration of the Fish, they also need to pay-back by being patient, understanding and gentle. Sure, they may teach them the lessons in cleanliness, orderliness and practicality, but the approach will have to be slow and soft. A querulous, nagging approach would fall flat on the face here, and shall only add to the frustration!

THE FISH IN MATTERS OF HOME AND DOMESTICITY

Born nurturers, the Pisces natives love the idea of family. However there's a hitch here. Stability brings security. But after a point, the same stability can make the Fish feel stagnated. Movement and mobility bring freshness in their lives, for they are the fishes of an ocean and not of an aquarium. Hence, the Fish may exhibit some duality in the aspects of home and family. They love, rather adore, their family, but may feel stagnated in a fixed institution like marriage.

It is often observed that the Fish don't easily give voice to their emotions. Their instincts guide them and unfortunately, they expect their family members to be equally intuitive. But the non-verbal communication can make things complicated and lead to misunderstandings. If there are problems, the Fish should talk them out with their family members.

When you are a part of a family, you enjoy certain rights and at the same time, you have to perform your duties as well. Those born under the sign of Pisces seek support of their family, but they are not comfortable with the duties and responsibilities that come with the package. The unsaid rules and expectations may seem to cramp their freedom. The Fish

should work on this aspect of their personalities to lead more fulfilling lives. As already said, the fish make doting parents and spouses. But, their responsibilities do not end there. They turn out to be very lenient parents, which may become a cause of concern for their family. A little more realism, readiness to save more and invest wisely shall also go a long way in helping the Fish nurture and raise a happy family. It would also help them, if they relax their rigid views about spirituality and altruism, especially if their partner is uncomfortable about it. Changing with changing demands and time shall serve them well in the matters of home and family.

Zodiac Design Sensibilities

Home Design Sensibilities of Pisces

The third in the line of the Water signs, Pisces, the ruler of the depths of water is a mystical sign. A (maybe two) water feature/s, proximity to a water-body (if possible), a generally relaxed atmosphere, an ethereal, dreamy and relaxed feel to the home – such are the desires of the Pisces.

However, the Sign is also associated with chaos, so, quite obviously, the virtues of tidiness and organisation cannot naturally be attributed to the Fish. Order in day-to-day affairs is, often, not a norm, and so is the practicality. Intuitive Fish have so much internal stuff going on that the worldly matters may not really hold their attention, not in theory, at least. However, there's a paradox here! In real life, the Pisces may end up managing and organising their assets quite well, in this case the house, mostly because they are quite attached to them. Sensitive beings, many of them end up investing in a lot of emotion when they build a home, and hence they would do what they can for its upkeep. Besides, a well-organised, managed home provides the much-needed anchor to these floaty creatures.

Humble and modest themselves, Pisces natives do not believe in making very strong style statements. Understated elegance and cosiness rule, and this tendency extends to their home décor preferences. Most Fish place great value on seclusion and privacy. Probably that's the reason that most Fish don't mind setting up their quarters in suburbs, outskirts of the city or in the quietest parts of the town.

To a Fish, his home is a cosy nest to shield him from the stresses and strains of the outside world. Thus, ideally speaking, this house ought to be shielded from the noise and clatter of the outside world – literally and metaphorically. Comfort, relaxation, security, privacy, isolation and restfulness are the musts. Sound-proofing, artificial ceilings, graphite panels for walls, thus, would be ideal, if the pocket permits, for this home. And so would be the state-of-the-art heating/ air conditioning systems (if possible), enough shielding from harsh light, thick drapes, greenery surrounding the house and open spaces like balcony, courtyard and windows to allow in natural light and air. The home to a Pisces should also ideally have low-maintenance form and fittings, given Fish's

natural tendency to be laid-back.

The love for the marine/ aqua theme and all things delicate and feminine shall be evident in all the décor and design choices a Pisces would have/ express. The colours of the ocean, the aqua hues – blues, aquamarine, coral green, turquoise, azure, surf green are loved the most, and so are the water features. Their preference for this theme shall extend to all other elements and aspects of the décor including the furniture, rooms, paints, draperies, accessories etc. Pisces also have a marked affinity towards natural materials, so marble, wood, stone, shell, ceramics etc. will find favour with them. Gauzy, soft fabrics like chiffon, gossamer, tulle, organdie, silk are favoured the most, and so are the floral/ sea patterns.

Furniture may be delicate, yet be comfortable, easy on the pocket and low-maintenance – don't expect the Fish to sit and polish the brass-edges of an ornate sofa. Upholstered chairs, sofas in dark blues and garden-furniture-style tables and chairs are ideal. Most Pisces may never say it, but they love the romanticism and delicateness of candlelit dinners, low sleeping arrangements, scented candles, crystal chandeliers etc. Keeping in tune with this theme, lighting in the home to a Pisces should be diffused, gentle and soothing. Stained glass features, flower vases, ceramic knick knacks would be the other great add-ons.

A small kitchenette brimming with warmth, and possibly done in the much-favoured marine hues would do well for a Pisces. The restricted space is to allow for the ease of cleaning and maintenance. And, the space may be augmented with fitted units, shelves, on wall cabinets - anything that promotes order and allows for a more convenient access. The Fish will love to sit and relax over a mug of frothy coffee here.

When it comes to the bedrooms, think of a beach-holiday, when you went to these simple sea-cottages with big French windows! Now something on those lines would make an ideal bedroom for the Pisces - no over-the-top furnishings of the Leonine liking or the strict primness of a Virgin taste. Just Chill! That's precisely the mantra of the Fish, especially when retiring to their den for a restful slumber. A study table, a nice arty lamp, cottony bed-covers, flowers on the drapes and in the vases and an open book shelf with a low, comfy bed shall do the trick.

Undeniably the water theme shall extend to the he bathrooms as well. A Fish would be the happiest, even if he just manages to achieve their

loved ocean feel only in their bathrooms - complete with a huge bathtub, corals, shells and sea-stones for accessories and big windows with stained/ tinted glass and the works. The extra space in this home will have to be a garden, a small pond in the backyard, a courtyard with a tree and provision to lie down on lazy afternoons and the likes.
