Foreword

Welcome to the intriguing and bewitching world of Astrology, the powerful, predictive subject that has caught the attention of many a non-believer across the world, for ages.

Unearthing the hidden knowledge of self, the world and the universe has been an eternal quest of human beings. The curiosity to know what the future beholds, and the undying urge to be able to capture the future has always been a driving force behind evolution, innovation, invention, the struggle for existence and overall human development.

Probably that's why we have always been scampering to get a slice of the future, and hence, the eternal popularity of astrology and other predictive subjects. If nothing else, this knowledge makes us feel 'in-control'! Astrology is one of the keys to this knowledge – of the self and of the future. How successful or unsuccessful it tends to be is a different debate, altogether. But, going by the huge number of its followers and believers, astrology surely looks a potent area.

For years altogether, planetary movements and interactions of various heavenly bodies have fascinated the best of the minds. And, this very study of the celestial bodies – the Sun, the Moon and the planets – and their positions in relation to the human life and affairs has come to be known as astrology. The science or, as skeptics would call it, the subject of astrology is as vast as the Universe itself. The permutations, combinations, integration and many other principles of Mathematics have been employed to study, understand and decipher the fundamentals of astrology.

Usually an Astrologer will draw up a horoscope of a person with the help of his/her birth data – date, time and place of birth – and then sync it with the positions of the celestial bodies at that time to determine the fate and future of the person, his personal qualities, his natural gifts, and almost every aspect of his life, short-term or long-term prospects of his education, health, love life, finances etc.

There are various systems and ways in which Astrology has been practised and understood. However, Eastern Astrology System (better known as Indian or Vedic astrology) and Western Astrology System are quite popular. Also called the Nirvana (Indian/ Eastern) system and Sayana (Western) system of Astrology, both of these are reliable and relevant in their own ways.

Broadly speaking, the Western or Sayana Astrology finds its basic principles on the Solar Horoscope and hence, the Sun Signs (largely based on one's Date of Birth). On the other hand, the Eastern/ Vedic Astrology is based largely on the Moon Signs. Owing to the ease of identifying the Sun Signs – they are classified as per the birth dates - the layman finds a higher appeal in

Sun Signs.

Although a person's individual Natal Chart and other planetary aspects (current and past) are required to accurately predict his/ her future and personality, the Sun-Signs do give a fair, albeit general, indication.

This book aims to bring you the both – the general personality features of each Sun Sign and the predictions for their future in 2023. In fact, there is something for everyone in this book – for the avid news buffs and the crazy sports buffs, not to mention the zodiac junkie!

Your Zodiac Horoscopes 2023 by GaneshaSpeaks.com decodes each Sun Sign – by giving you a complete low-down on general nuances – with interesting nuggets of information and features that make for great reads. This aspect gives this book a timeless appeal. The importance of predictions for a coming year may wane as the time elapses, but this beautifully classified information on Zodiac Signs will always remain relevant, making this book an invaluable, handy reference. The 'Sun-Sign in a nutshell' feature is meant to give you a fair idea of the most interesting aspects related to each Sign – be it the best day, lucky gemstone etc.

As you move to the Predictions section, you will come across clear, concise and detailed – chronologically arranged - predictions for the year 2023 for each Sun Sign. The predictions have been arrived at after a meticulous analysis of the planetary alignments in store in the year 2023 vis-a-vis each Zodiac Sign.

All attempts have been made to keep the predictions lucid and concise. For each Sign, you will get yearly, in-depth month-by-month, week-by-week forecasts, monthly tips and important dates. The annual horoscope section comprehensively touches most important aspects and areas of every life - like love, relationships, finance, career, domestic life, health trends etc. The monthly and weekly forecasts provide you ample hints on vital days, important areas - with respect to planetary alignments at a given time – and times, when you would need to be extra cautious.

Your Zodiac Horoscopes 2023 by GaneshaSpeaks.com has been written and compiled with an aim to enhance the happiness and satisfaction quotient of your life. As already mentioned, you can use it as a general guide to understand yourself and people around you better, OR can employ it to foresee the probable opportunities/challenges, and consequently handle them well – all through the year 2023 and beyond. You may also gift this book to your loved ones. Ganesha wishes you luck, and hopes that you will utilise this book, His gift to you, to the fullest.

Author's Note

All the Zodiac Signs' descriptions and predictions (barring the articles) carried in this book are based on the Sun Signs and the Western methodology of Astrology. Plus, they have been written and compiled keeping in mind an average reader, who may or may not be familiar with the subject of Astrology and Zodiac Signs. Hence, the implications have been kept simple, and the deductions, general and universally applicable. We, thus, deliberately avoid loaded, text-book terms and specific nuances.

Beside the Sun Sign - other planetary aspects exert significant influence on an individual, playing a vital role in shaping his future and life. An individual is often a sum total of these (and more). And, although Sun Signs do make a great contribution, they are duly assisted by other cosmic aspects. The Sun Sign descriptions and predictions, thus, given in the book *Your Zodiac Horoscopes 2023* are largely general in nature. They do not take into consideration Astrology's other specifics.

Have you ever wondered why your Capricorn friend is not as much of a calculated money keeper as a zodiac description says? And, why do you think your Libra mom gets too hasty in taking her decisions, when all she is supposed to be is balanced? Well, as aforementioned, besides Sun Signs – which are determined by one's Date of Birth – there are other factors, as per Astrology, which shape a person's overall personality.

That is why - you may have noticed that Astrologers ask for your Birth Time to create your Personal Horoscope/ Janam Kundli.

Thus, while reading your predictions, bear in mind that, although, Sun Signs guide us in creating near-perfect predictions for the year 2023, there is always a possibility of discrepancies. Besides, for all practical purposes, not all individual nuances can be covered within the scope of a book. Keep these important points in mind, as you go about enjoying this vastly useful book. In your course, you shall see how, subtly yet powerfully, these insights improve your life and its various aspects.

Again for practical purposes, we have, at different junctures in the book, used the alternate symbolic names of Sun/Zodiac Signs. The Ram stands for Aries, the Bull for Taurus, the Twins for Gemini, the Crab for Cancer, the Lion for Leo, the Virgin for Virgo, the Scales for Libra, the Archer for Sagittarius, the Goat for Capricorn, the Water Bearer for Aquarius and the Fish for Pisces (with the exception of Scorpio). In no way, do we intend any offence on the people of any Zodiac Sign by employing these names.

Lastly, please note that the Zodiac Sign pointers and Yearly predictions given here are in NO way a substitute to your personal discretion OR a professionally done Natal Chart/ Janam Kundli (Personal Horoscope) reading.

Live and let live!

The Zodiac Mysteries

The Sun is the largest celestial body in our solar system. As per Astrology, the Sun signifies the Soul. No wonder it holds a place of pride, when it comes to understanding and interpreting a birth chart in astrology. Of course, other vital planets and their positioning in a Horoscope decide the course of one's life. But, the importance of Sun cannot be over-emphasised. Western Astrology lays a plenty of emphasis on employing Sun's positioning and its relation with other planets in determining one's characteristic traits, features and even future trends. Sun is said to exert a major influence on one's personality and personal life, and also determines one's choices and preferences.

Based on the entire Zodiac, there are a total of 12 Sun Signs, also referred to as Star Signs in myriad literature. They are based on one's Date of Birth, and take into account the aforementioned fact that the Sun is indicative of, to a great degree, one's personal qualities, tastes, preferences and choices. Although a division of qualities based on Sun Signs is seen as too broad by many, it still gives a fair view/ idea of the likes, dislikes and lucky charms of people of a particular set.

Now, each Sun Sign may have any of the three main qualities – Cardinal, Fixed or Mutable - four Sun Signs fall under each quality. Some of each Sun Sign's inherent traits may also be traced to these umbrella qualities.

Cardinal Signs are – **Aries, Cancer, Libra, Capricorn**. These Signs are seen as active, enterprising and innovative. Noted for their leadership qualities, these Signs are NOT necessarily dominant and overpowering. People of these Signs would rather *make their presence felt* with calm authority.

Often referred to as the organizers of the Zodiac, the Signs that fall under the **Fixed quality** are **Taurus, Leo, Scorpio and Aquarius**. Quite resistant to change, people under these Signs tend to be stubborn, intense, steadfast and fiercely loyal. Freedom loving, they usually turn detached and reclusive (usually with the exception of the gregarious Leo), when their personal space is invaded.

The four **Mutable Signs** are – **Gemini, Virgo, Sagittarius and Pisces**. All the four mutable ones tend to be excellent communicators, and are seen as versatile and adaptable. Networking and inter-personal skills may safely be called as their forte. The natives of these four Signs tend to be somewhat self-absorbed.

The Zodiac Elements and Colour Palette

Elements

The popular astrology takes into account four elements – Fire, Air, Water and Earth. All the 12 Sun Signs can be classified under these elements such that there are three Sun Signs under each head -

The Fire Signs – Aries, Leo, Sagittarius

The Earth Signs – Taurus, Virgo, Capricorn

The Air Signs – Gemini, Libra, Aquarius

The Water Signs – Cancer, Scorpio, Pisces

Astrology and Colour

Colours are important to us, and they do have an impact on us. They fill the otherwise mundane life with excitement, zany and beauty. Colours are said to have a marked effect on our sensibilities, feelings, moods etc. That is why there is a noted alternative therapy called as Colour Therapy. Surround yourself with compatible colours, and see the difference yourself.

Various tones, moods, qualities and feelings can be associated with colours or colour groups like Reds are warm, Blues are cool while Greens are said to induce restfulness, and white is said to augur clarity of thought.

When it comes to the connection between colours and astrology, different colours have been associated since times immemorial with various Zodiac Signs. The connection is largely made based on the elements and qualities linked with the Zodiac Signs, and also on the personality traits associated with these signs, elements and qualities.

One can choose the colours and colour mixes based on their Zodiac, their element and/ or their complementary nature. Elements which naturally foster each other are said to be complementary in terms of colour palette too. So, you will see that the colours associated with the Earth Signs and the colours associated with the Water Signs will be

related, and same goes for the Fire colours and the Air colours, which are said to enliven each other.

Now, using or bringing in a compatible colour scheme at all times can be tricky, especially if you feel stuck due to professional or conventional reasons, and cannot suddenly introduce an eclectic colour scheme into your life. Firstly, note that surrounding yourself with a good, compatible colour is important, if you are looking to benefit from the therapeutic and astrological properties of colour. But, how you do it is best left to you only, which means that it could be done in any which way you find suitable. Add colour to your surroundings with the aids of home décor, paint on the walls, paintings, flower arrangements, aquarium or simply with clothes, accessories or colourful additions at your workplace desk.

The Fire Signs

The three Zodiac Signs that subscribe to the element Fire are Aries, Leo and Sagittarius. Active, enthusiastic individuals of this group tend to be quite assertive and vigorous. The people under this group, in these three Signs are not the ones to be easily deterred by the blows of life. Always striving to rise above the mundane and swim upstream, these Zodiac Signs are the initiators, and don't hesitate in putting their imagination to creative reality. Fire Signs gel well the most with the signs under the same group, yet they also tend to connect with the Air Signs. Fire and Water do not make a good mix, and hence signs of these two groups tend to not connect well. As far as the Earth Signs are concerned, Fire Signs tend to have an average to decent amount of tolerance for them.

Associated Colours

All Fire Signs can be most associated with the varied colours related to the fire itself. So, be it flaming reds, inviting tangerines or shades of yellow, Fire Signs tend to relate to it all.

Aries

The Aries-born is a restless, active and courageous individual, and thus associates most with the brightest or rather deepest of the colours in the Red family. So, all kinds of reds - crimson, scarlet, brick-red, tomato red, vermilion and even pillar-box red – work for them. Aries is also the ruler of these colours.

Leo

Sun is the ruler of mighty lions, the Leos – the intimidating leaders of the Zodiac, or so they would like to believe! Hence, the colours most associated with the Lions are sunlight colours – yellows in all shades and hues, orange, tangerine, gold, burnished golden, bright yellow of daisies and sunshine.

Sagittarius

The Archer as a Zodiac Sign is ruled by the largest planet Jupiter – the planet of deep, profound thought, analysis and knowledge. Thus the colours associated are the colours of Jupiter – deep yellows, mustard yellow, greenish yellows, and even indigo, deep blue etc. Darker shades of red like maroon etc. are also associated, and even the colours that are formed by combining reds with the tinges of blue and yellow – purples, violets, aubergine etc.

The Earth Signs

Cautious, practical and methodical in their approach and attitude, Earth Signs represent the ground reality in the Zodiac. Down-to-earth with a conservative perspective and a subtle, often subdued taste, the Earth Signs – Taurus, Virgo and Capricorn - tend to be the flag bearers of everything that's stable, earthy and realistic. Their understated preferences and high regard for quality, durability and relevance are mirrored in the way they carry themselves. Often the ones to be the most well turned out amongst a crowd, Earth Signs value their pre-set goals, materialism and wealth, and have a genuine respect for people who manage to carve a niche for themselves. Impulsiveness doesn't come naturally, even though it's desirable that they let themselves go, at times– doing something rash, fun or colourful, just once in a while, won't hurt them!

Associated Colours

The colours of nature and earth tend to be the best for these earthy creatures. Practical colours that have a matter-of-fact appeal work well, and are best carried. However, this doesn't mean that these elegant Signs can't carry off anything jazzy or psychedelic. It's actually good if they become more experimental, and do something crazy once in a while.

Yet, it's unlikely that Earth Signs will dress in a riot of colour from head to toe. But, then slightly offbeat ones will match some zany colours nicely with their favourite, subtle tones. Not that they go wrong usually when it comes to the aesthetics, anyway! Unsurprisingly, Earth Signs tend to have a special preference for pastels and beige.

Water Signs make the best matches for the Earth ones, and the colours associated with Water do well for the Earth ones too. Colours of Fire and Air too may be connected to the colours of Earth.

Taurus

This Sign enjoys the broadest range of colours and a most eclectic, although subtle, palette thanks to its ruling planet Venus. The planet of beauty, aesthetics and attraction bears a special connection with colour in all its forms, and so Taurus too ends up enjoying it. Most pastel colours, pale hues and floral tones work well for the Bulls. So it's pale blues, surf greens and rosy pinks all the way for these exotic ones. In short an idyllic blend of all elements - colours of Fire, Water and Air in their exotic best - works wonders.

Virgo

Virgos move further into the spectrum inching towards the earth tones of dull blues, greens and even yellows, muted beige, mushroom hues, greys and fawn. Although all these colours suit Virgos, you will see them experimenting with other colours too. The self-loving Virgins have a great faith in their own self, which makes it easier for them to break out of their practical mould more than their counterpart Earth Signs.

Capricorn

Next in line is the zodiac's most dignified yet reticent and conventional Sign – Capricorn – the upward moving Goat. They take the analogy of earth and associated colours further into the spectrum. The colours most suited to them are the deepest of the shades of earth – jewel tones in green, blue and brown, mud brown and beige, soot-grey, dark grey and yes....black. The latter ones are best associated thanks to Capricorn's ruling planet Saturn. The take-away, though, for Goats is that they will do best with these colours, but it will not hurt, if they loosen up somewhat and add more tones from the palette of mother earth – an icy blue, an electric green and even a sandstone red won't hurt!

The Air Signs

Cool, light and collected – airy – in short – that's how one can broadly describe the Air Signs – Libra, Gemini and Aquarius. These are the ones who mostly manage to keep a calm, rational and largely detached approach in most emotional of the situations. Not the ones to usually put up a show of their inner feelings and emotions, these signs are active, agile and communicative. Intellectual activities are stimulating for them, and choosing their colours too become something they deal rationally with. No wonder their design and colour choices bear a cerebral perspective. Air Signs gel well among each other, as each of them is chatty, communicative and likes to be with right people at the right place and right time – too perfectionist, but, so what, it suits them! They have an eye for expensive stuff and luxuries of life enchant them. Earth and Water Signs generally find it difficult to associate with Air Signs, as either will not be comfortable with the other in the long run, despite a good start.

Associated Colours

Air is colourless and transparent to a great degree. The colours of sky and translucent tones may also be attributed to air. Same goes for the Air Signs – the colours related to air apply for Air Signs too. So, it's hues of sky, changing colours of horizon, whites all can be associated with the Air Signs. Thumb rule is 'light' and 'cool'. Earthy tones and deep, mysterious hues will not find favour here!

Libra

The balanced ones – Libra find it easy to rationalize during trickiest of the life's issues. No wonder they opt for the most professional, coolest and balanced of the hues. So, it's blues and shades all the way for this Air Sign. Medium shades of blue, translucent greens and light, even whitish blues and pale pinks – all are great. Although the Libra are born with an inherent charm, garish colours are not carried well, and so says the astrology. So, it's not Sagittarius's dark blue or Taurus's pale, pastel one, but the mid-hue of blue that suits a Libra. Libra and Taurus – thanks to their shared ruling planet – Venus, display similarity in this respect.

Gemini

The ruling planet of Gemini, Mercury, is quite good an explanation for their mercurial temperament. Confused? Don't be or else forget understanding a Gemini! There are extremes, and they like both of

them. Twins' design and colour choices reflect the same. Their associated colours stretch from the pale yellow of Mercury to the transparent blues of sky. Colours of the Sun, varying colours of horizon – scattered pink of the twilight and dull grey interspersed with golden and blue of dawn and aquamarine blue all find favour with the Twins.

Aquarius

Electric blue – the brightest of the sky colour family – finds the place of pride in a Water Bearer's life. The colour is a reflection of this Sign's startling persona – difficult to explain reactions even when pleasant, unexpected responses and the overall mystery. Jade green, royal blue, turquoise, deep surf blue find favour with Aquarius. And, so do deep grey and black! There's a nice analogy that can describe an Aquarius' taste in colours – it's as changeable, unexplainable and myriad as the changing shade of clouds and sky would be, if one moved towards the outer limits of atmosphere, on the verge of entering the depths of space!!

The Water Signs

The trio of Cancer, Scorpio and Pisces form the Water Signs. All three share their emotional excesses and sensitivity, yet they are not the ones to be bogged down by unpleasantness and fears. It's, in fact, pressure and responsibilities, which psyche them out making them withdraw and under-perform. Yet, all the three Signs can be credited for excellent intuitive prowess and an internal strength that's seldom seen. No wonder they tend to be the absorbers of negativity and others' troubles and fears. But, it's their strong emotional responses, which can be quite draining, and that is why these Signs need their private space and seclusion to recharge their emotional reserves. Don't nag a Watery Sign, if he/ she is withdrawn! Their notable spirituality and perceptiveness is well known. Water Signs do well with the Signs of the Earth family, as the earth tends to lend form and structure to water. Colours related to the Earth Signs, thus, do well for the Water ones too. Fire and Air are not compatible with Water – while the Fire is absolutely incompatible, Air may have initial pleasant moments, which don't last long.

Associated Colours

It goes without saying that colours related to the depths and mysteries of nature in general and water in particular associate well with the Water Signs. So, it could be any colour ranging from blues and greens of

water to the burnished golds and deep reds of a sunset. Muted, pale tones of earth brown may not suit their taste, but stark white, off-whites and silver make their day.

Cancer

The most watery of the three Water Signs is Crab, and that is why they bear the maximum affinity to the hues of water and, not surprisingly, sea – their home. Beach lovers, malleable and reclusive, they love the marine colours, but it's the colours of Moon that find maximum preference with them. That is because Moon is their ruler, and is also the one that makes them gentle, confused and dreamy. The lightest shades of blue – surf blue, the blues of the ocean foam and the blue of the morning sky – gentle and polished – work the best. Same applies to the greens – never the electric or gaudy shades, but the sea greens of the pastel variety. And, what rules, obviously, is White – and silver and a few smoky colours associated with moon, full-moon and even no moon!

Scorpio

Scorpio is different than the two other Water Signs in more than one way. The most mysterious Sign of the Zodiac is deeply associated with the darkest and deepest shades – be it reds, maroons, violets, browns, golds - all thanks to Mars, the planet closely associated with Scorpio. Pluto, the coldest and the farthest planet, the ruling planet of Scorpio also bears its effects on their design and colour sensibilities. Hence, the affinity towards dark! And then, there are the colours from the water palette – greens, blues and the likes – but all in their darker hues.

Pisces

Pisces picks up from where the Scorpio stops! So, this dreamy, romantic and submissive Sign gets the hint of reds and violets from Scorpio, and adjusts them to suit its sensibilities. Thus, it's fuchsia, mauves, lavender, pale purples and pinks – all hues of pink rather; it's the most feminine and romantic colour after all – for Fish in the colour department. And, then there are light, bright green, aquamarine and sea-blue, which suit them quite well, and bring out their best features. Whites, creams, peach and dreamy tones of various colours also attract the design sensibilities of a Fish. All in all, a splash of colour, but all mixed and coordinated to the aesthetic t.

Zodiac Signs in Love

Aries : Vitality is the second name of this proverbial infant. Aries knows how to celebrate life with his candour, optimism and love for adventure. Probably that is why despite being the self-centred, self-absorbed, impulsive babe, Aries is so lovable, and manages to win admirers with a surprising ease. Love for them is a given, a necessity that has to be fulfilled. They demand it as if it is their birth-right. They will go to the least probable places looking for love, especially if it catches their fancy. When in Love, they tend to be very loving and mindful of their loved one's needs and demands. Happiest to pamper with extravagant gestures, they see love as an accomplishment. The babe in Aries secretly craves a lot of babying, and yearns that all his desires be fulfilled at the first instance. Aries need constant reassurances in love (though, they usually are too egoistic and smug to accept!). A happy and satiated in love Aries is generous and cheerful. While, a neglected in love Aries shall shout, cry and throw tantrums. Besides, an unhappy in love Aries may develop a tendency to get bored with people too soon, may even become a philanderer.

Taurus : The healthy, cherubic baby in Taurus is loved and admired by many, and yet many are afraid of his stubborn tantrums and sudden, unannounced grumpiness. The toddler-in-making understands and appreciates the love and security net provided by his family, and lays supreme importance on both, as he needs them for his sustenance and happiness. Anything that brings the familiar comfort and warmth is valued and clung on to by Taurus. Love for them is affection in its primal, physical, visible sensual sense. Love to a Taurus ought to be pleasurable and available, when he needs it. And, he likes (and knows) to both give and receive love. The deeper, more subliminal aspect of love may not be understood by the Bull. Very steadfast and loyal, Taurus natives value material comforts and security, and get drawn to people who have and can provide for them. When in Love Bulls are devoted. Their understanding and display of love, though, may lack depth or tenderness. Traditional and least change-oriented, their relationships too may mirror their personalities. Rejection and betrayal are abhorred!

Gemini : The toddler in Gemini understands, appreciates and values his autonomy and new-found independence. He can speak and express, and is no longer dependent on others for fulfilment. Communication is new and very very enchanting! This is intoxicating. Most Geminis love to talk.

And, manage to leave others smitten in the process. Love for them is conformity that does bring happiness and pleasure, yet can be a hindrance to complete, uninhibited freedom. In positive sense, love becomes an enjoyable bond for Gemini. When negatively viewed, it may cause resentment, as the Twins may see love as restrictive. When in Love, Gemini can be versatile, entertaining, inquisitive and stimulating. Their candid, amicable personalities make them great companions. Spending hours simply chatting and interacting with their loved one is always on their agenda. Geminis, however, are prone to bouts of restlessness and recklessness. Impractical, impatient and inconsistent when under such spells, they may attempt to run away from love. Also prone to the feelings of duality about love and relationships – one moment craving the pleasure, amusement and warmth the love brings, and the next moment resenting it with full force.

Cancer : The Crab craves change, yet is scared of it. Not an adult yet, the adolescent hidden in Cancer is enchanted by the grown up, mature world, while the security net of his family, the familiarity and safety of his home still tugs him back. The Crab deals with a plenty of emotions, many of which are new to him, yet very real, very deep. He watches others with an eerie perception, and thence develops his famous instinct, his intuition. Love for them is the emotional security net, a need that is above all, and that, ideally, should come from a familiar corner of their lives. This great need for love evokes in them a deep sentimentality. When in Love, they love with all their senses, all their might – completely and irrevocably. They make gentle, sensitive, caring and loving mates, often sensible and cautious. And, they need an equal amount of, if not more, love, attention and tenderness back from their partner. Crabs can't handle hurts, though – their silent anger is well-known, and so is their tenacious shell. They need their quiet moments to recharge and refuel their drained emotions.

Leo : The king Leo is regal, proud and confident – of the self, of the ability and of his knowledge. Courageous, large-hearted and compassionate, Lion is full of youthful enthusiasm and vigour, often the proverbial performer. The symbol of idealistic young blood, the bright, warming sunshine and the spring bloom, Leo loves gazing at himself, admiring his handsome features, dogged drive, keen perception, surprising candour and admirable wit. Love for the Lion is romance – bright, frothy and beautiful – akin to the fairy tales. Lion loves the idea of 'being in love'. This feeling for Leo may not always be about loving

someone else, but oneself and the whole world, at large. In love, the Leo are supremely ardent, affectionate, loving and amorous. They love pampering their loved ones with open displays of affection and magnanimous gestures. In return, they expect, rather demand, ample doses of praises and thank-yous. On the flip side, although, Leos possess all the qualities of a great life partner, they can be taxing as lovers. Besides, given their vanity and social popularity, they may end up neglecting their partners or drift towards multiple relationships.

Virgo : Conscientious, dutiful perfectionists, Virgos are meticulous and prim with a competitive, survival instinct so marked that it dominates their life and choices. No wonder that they are said to signify the realist young adult donning the mantle of maturity and determination. Capable of dissecting, de-constructing and analysing almost everything, Virgos believe in submitting to the norm for the benefit of duty and practicality. Love to them is a mystery to which they are often happy and content to surrender. On the edge of awareness, yet not willing to know further, Virgos may believe completely in what they see. Completely devoted to their relationships, they do keep their practical antennae up, at all times. Besides, their constantly working minds may not allow them to let their hair down. When in Love, they are gentle, dutiful and loyal. They love taking care of their loved ones, creating perfect havens and pampering along the way. Dependence is abhorred, and so are sloth and disorganisation. Virgos' vigilant, fretting selves rarely miss anything. Becoming overly critical of partner's flaws is a possibility with Virgos. Jealousy and competitiveness too may mar Virgos' relationships.

Libra : Libra is capable of understanding and appreciating myriad facets of human existence and the world at large. Libra knows that the key lies in moderation, in finding and internalising the fine art of balance. Existence comes to assume a wider perspective in the Libran world. Love to them is, thus, harmony. Mating of minds that is balanced – not extreme in any way, leading to happy, pleasurable results. In Libra's poised, symmetrical world, love is also a lot about beauty. These people know when they have fallen in love, and like it to come with all the frills attached -wine, roses, candles, pink hearts et al. However, they may rarely get to know – why. Getting drawn towards beauty, elegance, money, success, fine things in life, lifestyle, they may forget/ fail to appreciate their partner for what/ who he/ she is. When in Love, they make for attractive, charming, tender, committed and interesting partners. Objective and fair, they may take their time to say yes, but

once they have made up their minds, they seldom stage a walk-out.

Scorpio : Passionate, sorted, capable, mature, keenly intuitive, yet insecure, restless and secretive, Scorpios are as mysterious as they come. This emotional and magnetic Water Sign signifies the mature human being who already knows a plenty, yet is able to perceive that there's a lot he still hasn't seen. And thus, he desires to see and find it all. Scorpio is fiercely protective of his own self, and of his loved ones. Any hurt and Scorpio reflexively stings back – revenge, instant and complete is the name of the game in his raw, intense world. Defeats motivate him, and hurts harden his resolve to bounce back. Love for them is an all consuming desire for oneness that engulfs their lives, and greatly affects their opinions. To them love is supreme, worthy of any sacrifice, even when expressed and understood in a more physical, carnal way. In love, Scorpio is potent, protective, gentle and loyal. In the beginning, though, they may play it cool. Passionate to the core, these magnetic and powerful beings are sure to draw attention and appreciation from myriad quarters.

Sagittarius : Restless, inquisitive and philosophical Sagittarius find it hard to believe anything/ anyone at the first go, and hence take time to form opinions. Born with a unique spirit of inquiry, they (with their penetrating logic and curiosity) aim to unearth the mysteries. Candid as they are, in their attempt to know and see, they may end up asking/ saying blunt, embarrassing or rude things. They can be optimistic yet sceptical, fanatic yet atheist, and tactless yet serious! Love to them is true, eternal yet something that they may never see or feel, and thus needs to be found, investigated, restored or retained, before it is lost forever. No wonder, Archers are insecure, even though their insecurities are carefully masked under the garb of garrulous, self-immersed, blunt exteriors. Scared of reality (and even shocked beyond repair by it), they seek refuge in idealism. Unable to look inwards, so socially tuned in they are, they may fail to achieve true fulfilment. In love, Sagittarius are cheerful, optimistic, communicative and adventurous. They are their happiest in a new relationship, as there is so much to find, so much to know and so much to see.

Capricorn : Hardened by experience, Capricorn is stable, steadfast, responsible, driven and dependable. However tired or weary it may be, the Goat is never scared of leading the way for others or taking a new responsibility. Gifted with great personal strength, organizational skills

and a perfunctory sense of practicality, they believe in carrying on when others have long stopped or discarded a task. Love to them is a mutually satisfying exchange that brings the needed security, peace and contentment. It may not be the idyllic, romantic, liberating feeling as in the movies, but is definitely important. Capricorns' stern exterior and Saturnine ways hide their gentle, tender side. Yet, they understand that love means being able to forgive, and rise above the human flaws. When in love, they are dependable and caring. Not the ones to believe in excess of emotion and display, however, they tend to be controlled, measured, even cautious in their approach to love. They may even be called selfish and callous. But, let a Goat open up, and you may have a very interesting partner beside you, who does have a sense of humour (even if tinged with sarcasm and irony), and who is capable of appreciating finer things in life.

Aquarius : Novelty enchants Aquarius, and the modernity infuses life into them. Aquarius firmly believe that they know and can infer. Liberal to the point of being peculiar, even eccentric at times, yet so wise, they are a mystery to many. Fixed in their own personal priorities, style and opinions, they crave, propagate and encourage change. And, hence comes the duality, which surprises other people. Love for them is cool, impersonal yet unselfish and enjoyable. To the humanitarians of the zodiac, love is universal and ought to be selfless. In love, Aquarius is communicative, imaginative, witty, candid and friendly. The mate of this intelligent person will find great fun in spending time with him, as an Aquarius is always full of beans – innovative, bubbling with novel ideas to do something different and unconventional yet fun and cosy. Usually loyal (especially when they have found the 'one'), and supportive of independent partners, they themselves guard their independence fiercely. On the flip side, since many Water Bearers have their hands full, their social calendars chock-a-block, they may get detached, absent-minded and unmindful of their partner's needs. And, when confronted, they may simply refuse to cooperate.

Pisces : Dreamy, romantic healers of the Zodiac, the Pisces are kindred souls – sympathetic and modest. Often quiet, slow and measured, the proverbial 'old souls' seem to possess a deep understanding of life, especially when seen from a distance. Ones who come across as detached and passive, they may seem troubled to some and enchanting to others. Some Pisces may want to abandon it all and leave, while others may completely give in to the epicurean, hedonistic romantic

ideal. Love is a selfless emotion to them, a miracle that completes, creates a 'whole', and requires entire submission of the self. In love, Pisces are is nurturing, intuitive, selfless and compassionate, yet frustrating at times. Rarely willing to explain his stance and quite fixed in opinions and thoughts, they are capable of evoking a variety of feelings, broad enough to cover the entire spectrum of extremes. They avoid, rather shun, confrontation and make submissive partners. In healthy relationships, they flower, blossom and are capable of attaining their poetic, philosophic and creative best. Wrong experiences, on the other hand, may divert them towards the irrevocable routes of addictions, alcoholism, promiscuity and wasting.

Zodiac Sign Preferences

Know the preferences of various Zodiac Signs. Find out which one makes the best shopping partner, and which one of them would make the best gym-buddy! Also find about the preferences of various Zodiac Signs' natives in terms of sports and health.

Aries: Initiating any activity comes naturally to these initiators of the Zodiac, but the real challenge for them lies in sustaining interest in it. Energy, initiative and enthusiasm are a given, but so are impatience and wavering attention, when it comes to Rams. An Aries loves to be pronounced as a fitness freak, and will also love to indulge in myriad sporting and physical exercise activities. But, then, they may not really be very consistent with these 'gym and playground' escapades. However, given their natural ebullience, they tend to excel in sporting activities, especially running, sprints, cycling, biking and high-impact aerobics.

Their choice for auto-mobiles too mirrors their love for everything contemporary, fast and challenging – Aries love to ride a sports-bike or a sports-car. And, whatever they choose to drive, one thing is sure - their 'mean-machine' has to be snazzy! Aries exhibit similar tastes, when it comes to other things like clothes, accessories, jewels and footwear. They will always point at the most in-style and chic jewellery and apparels. So, it's a wise idea to take them as shopping companions – they won't be imposing, but will lend you excellent advice about latest places to shop and trendiest stuff to buy. Have fun!

Taurus: Headstrong and stable Bulls are practical beings, and thus

appreciate the importance of physical fitness and regular exercise. But, then they may find it difficult to implement this understanding, given their proclivity for many other activities and pastimes. Thus, a Taurus may find it hard to divide his/ her activity or reading time to get going on a treadmill. However, when it comes to sports and fun activities, they more than make it up for any lack of physical exercise. They love to put their endurance and stamina to test by indulging in activities like rowing, tug-of-war, canoeing, mountaineering, hiking, trekking, travelling the world and gardening. On the sports front, basketball, volleyball, cricket, golf, rugby rule for Bulls.

Materialistic Bulls like to firmly believe that their possessions, be it mundane items like garments or their much-loved auto-mobiles, are the best. They may not always be, though, yet Taurus won't prefer knowing that. In the jewellery department, understated yet classy stuff rules, and yes it will be expensive. Think diamonds and timelessly chic pieces! If going shopping, take along a Bull, if you are looking for something really different. Their love for the 'eccentric' often makes them shop for stuff that's truly class-apart. So, do take their advice when looking to stand apart in a crowd.

Gemini: Wiggly and restless Geminis like sports and physical exercises, but not as much as partying and socialising. Jogging, spinning, dancing and fun-games top their list of ways to remain fit. However, most Twins will manage to have good fun even in a gymnasium. And, that is not because they love toiling on machines and weights, (they hate it rather) but because they quickly find interesting gym-buddies with whom they enjoy hanging out for a post-workout snack! When it comes to sports, anything that is played in pairs catches their attention, so it's badminton, tennis, chess or billiards for them, all the way. Competitive sports and group activities too find favour with the gregarious Twins.

Ample socialising skills lend another excellent trait to Twins – their superior negotiation and bargaining skills. And, they are not the ones to join the 'brand-wagon'. No wonder, Geminis, especially women, make brilliant shopping companions for budget or street shopping trips. Junk jewellery and knick-knacks are not favoured items on their shopping list, though. In fact, otherwise fun loving Geminis are absolutely conventional, practical and utilitarian in the shopping department. So, they will also not let you go over-board! Their non-fussy preference for functional and economical reflects in their choice of vehicles too.

Cancer: Drive to match their sensitivity is what is needed by Cancers, if they wish to achieve what they dream of! Chances of you finding them cribbing that their efforts are not showing desired results are high. Why? Irregularity and lack of passion, maybe! However, give them a dedicated gym-buddy, and see them making a beeline for their workout, even early in the morning. An emotional connect in form of a friend or a partner can provide the necessary encouragement to propel the Crab towards his/ her fitness goals. They can also be instantly lured by an outdoor water sports expedition. Being water babies, Crabs love to indulge in water polo, boat race, para-sailing, ice-hockey and skiing.

Most Cancers are not regular shoppers, but once they get into a mood for it (temperamental Crabs are driven by their whims), nothing stops them. Shopping is a liberating experience for them. They just wish to relish the experience when shopping. Shrewd beings, they, however, manage to get the best value out of their expenditure. Non-intrusive, excellent shopping partners, they will never remind you of how much you are spending, though. They like to shop for precious jewellery, and their collectibles resemble the treasures of the seas - pearls, precious stones rule. Not given to outward appearances, a Crab may not worry much about acquiring swanky cars or vehicles, though. Rather, they would be more than happy driving their cherished old bike or car to which they will be emotionally attached.

Leo: To channelise their vast energy and enthusiasm in the right way, Lions prefer activities that'll let them excel physically. Conventional ways of burning calories won't find much preference here, though. Thus, contemporary and 'different' routines like kick-boxing, aqua-aerobics, ballroom dancing or hot yoga will suit more to their idea of getting and remaining in shape. When it comes to sports, Lions again have aristocratic tastes. Thus, they prefer amusing themselves with sports attached to royalty. Hence, golf, yachting, polo, horse-riding and car racing suit well the Lions' idea of grand entertainment. Gambling and visit to casinos are also distinct possibilities.

Unlike the former Zodiac Sign Cancer, the Lions are all for outward appearances. Given to a certain pomposity, Leos like to make bold, brazen style statements, and that applies to their choice of clothes, vehicles and jewellery. If their pocket permits, the Lions will love to become proud owners of a Lamborghini, a Rolls Royce, a Bentley or even a custom-made version of a vintage car. You'll see them picking up a

chunky neck-piece, a gleaming solitaire or a beaded bracelet, rather than a delicate pearl ring, when jewellery shopping. And, if they ask you to join them for a shopping trip, go ahead – you'll love the courteous treatment and ebullient companionship. Reverse the situation, and the results may not be as exemplary, though!

Virgo: Loyal and sincere, Virgins are quite regular at sweating it out. Being one of the most fitness conscious zodiac signs, their idea of staying fit includes aerobics, yoga, jogging or dancing. They are all about the 'au natural' look and feel. Also, besides physical fitness, good health is also about mental rejuvenation for them. Thus, they show a keen interest in games that provide them intellectual stimulation, apart from their oft-favoured basketball and gymnastics. You'll also see them driven towards natural ways of remaining healthy, and that includes eating and sleeping well.

Perfectionists to the core, Virgos are meticulous even when it comes to shopping. Here, they exhibit a certain duality, though. On one hand, they may simply pick up what they like without any prior planning, while on the other hand they may look for a bag/ watch at five different places, before zeroing in on the 'One'. Appearances matter, but so does the 'value'. Virgins will buy jewellery only in two cases – one, if it's a good investment, and/ or second, if they really, really like it. No wonder, they have a special preference for precious-metal jewellery and precious stones. For imitation pieces, they go for semi-precious stones, chunky, psychedelic or ethnic look that'll make them stand out. As for the vehicles, Virgins have a bizarre choice, especially if they can't afford an expensive model they fancy. They will prefer to buy a remodelled version than use a run-of-the-mill budget car/ bike.

Libra: Balance and poise – these are the two mantras around which a Libra's life and preferences revolve. They seek balance in all aspects of their life, and health and physical fitness are no different. Meditation, yoga, other calming and balancing forms of exercise appeal to them. So, it's not only about burning calories, but also about 'lifting spirits and feeling great'. Unconventional exercise forms like Tai Chi, Kalaripayattu and Kendo shall find favour with a Libra. Relaxing/ unwinding and having fun are vital to a Libra for overall fitness – after all it's all about balance. When it comes to sports, they are highly fond of athletic-activities that would let them test and hone their balance. So, it's gymnastics, spinning, hurdle-races, handball, skateboarding or skating for them, all the way.

Suave, stylish and often well-turned out Libra natives, surprisingly, do not like to shop. A Libra male is most likely to despise his wife's/ girlfriend's shopping expeditions. Female Libra, on the other hand, may love to buy expensive and designer stuff, but more so for her intimate relations than her own self. However, you can consult them for tips on latest fashion and trends, and they shall happily oblige. And, don't forget, they love receiving classy gifts – chic and delicate jewellery included. Buying or wearing jewellery, otherwise, isn't a preference here. Any jewellery bought by them is merely for investment purposes. They carry the same attitude, when it comes to their auto-mobiles. In fact, they would rather have their vehicles passed on to them as a legacy.

Scorpio: Intensely competitive and passionate in whatever they do, Scorpio natives tend to look for the ways to enhance their physical prowess and mental strength. Besides, anything that intrigues and energizes them is also good enough to keep them going. Thus, when it's about physical training, these aspects act as the guiding force. Vinayasa-yoga, power-yoga, rock climbing or multi-gym activities fit the bill perfectly! In the sports department, intense athletic activities or marathon races, which test their endurance and stamina, are their idea of fun and play. Scorpios are also, many a times, unbeatable at games like chess, monopoly. These are the sports that not only require a definitive strategy, but also give them a chance to flaunt their expertise. And, if that's not all, the Scorpio may choose to zoom away in a powerful bike or a time-tested car at the end of the day to refresh himself/herself. Their chosen vehicle will, however, have to be sturdy, reliable and easy to maintain.

Attractive and often quite poised, Scorpios have a distinct and definitive taste in clothes. They have set choices, and don't like anyone giving them any advice on it. The wardrobe of a Scorpio woman is usually very tasteful, and may even be a cause of envy for many. Most Scorpios have an exquisite choice in both clothes and accessories, and many of them may be the proud owners of some of the finest and rarest jewellery pieces and/ or precious stones. Tried and tested brands rule, but not for the sake of exclusivity, but because they guarantee longevity and trust. No wonder, most Scorpio women worship shopping. However, many men of this Sign are, more or less, indifferent to the shopping activity. However, they will readily pay the bill, without being grumpy or inquisitive about your purchases. They may not be very appreciative too!

Sagittarius: A powerhouse of energy, an Archer displays great strength and stamina, and tends to take his/ her workout routine a tad too seriously. They have the knack of getting down to the slightest of the details, and will meticulously plan each of their moves. Adventurous and always ready to experiment, Archers, however, fail when they overdo this very bit. They flourish the most in a competitive scenario where they get ample chances to boast and make show of their abilities. Adventure, team activities, vigorous sports like squash, lawn-tennis, swimming, horse-riding and even basket ball, baseball and hiking/ trekking suit their sensibilities best. If this does not suffice, they like to hit the road to explore new destinations in their posh set of hot-wheels – a Sports Utility Vehicle, maybe!

If the 'best-dressed' Sun Sign award was to be declared, a Sagittarius native would win hands down! The Archers have a knack to pick up just the 'right' objects at the 'right' time. An Archer woman is considered to be street-smart, as she would exactly know what to and from where to buy, and that includes jewellery. Great at bargaining skills, she'll also often manage to buy at the most reasonable rates. On the other hand, Archer men are relatively laid-back, and would rather be patient onlookers, while you shop. Thus, all in all, it's not a bad idea to take them as shopping companions, especially if their interests are as ardent (for shopping) as yours.

Capricorn: No one appreciates the benefits and rewards of an exercise and fitness program more than a dedicated Goat. Capable of first sweating it out on a treadmill before heading for a tango/ jazz session, Capricorn natives will be able to strike a balance between myriad means to keep fit, given they gel with his/ her current set of responsibilities. Weights, cardio, yoga, aerobics or walking in a nearby park - all may be favoured – they just have to fall in line with the Goat's busy work-schedule. And if that's not all, they'll also manage to fit in a trekking expedition, a soccer game or following some natural remedy, but only if time, or rather their work, permits. They also love playing competitive field sports that test their stamina and energy.

Practical and prudent, Goats, often, don't fall in the category of impulsive shoppers. Both male and female Goats are patient shopping companions, and when in mood, they themselves don't mind spending hours or even days (for bigger purchases) hunting for just the 'right' thing. That's exactly what happens when it comes to bagging their

'mean machine' - expect a Goat to create so much fuss that you'll be tired and bored. But, the end result will be so spectacular that you'll be left jealous! However, on most other occasions, a Cappy is too caught up with his/ her work to bother slotting a separate time for shopping, so shopping becomes an extension of day's work! In the jewellery department, the emphasis is on the minimal. Their love for tradition makes them go for timelessly classic or ethnic pieces, and yet it's always elegant.

Aquarius: Ironically stubborn yet pliable, Aquarius natives are, often, careful about their appearance. They like to keep themselves toned and agile, and that's quite possible given their natural charm and poise. However, what they really need is some more discipline and dedication towards their fitness goals. Add some mental/ intellectual stimulation to their fitness routine, and see them sticking to it like bees to honey! Mental health is as important to them as physical well-being. So, activities like Yoga and Pilates find favour with these free-birds. Also, anything that holds a humanitarian cause catches their interest like nothing else does. Charity walks, marathons and team sports are preferred, and so are adventurous sports like snowboarding, wind surfing, sky diving or bungee jumping.

Aquarius is, by far, the best Sun Sign to shop with. Not short on ideas and opinions, Water-Bearers like to go the whole hog, whenever they decide to shop! Their distinct style of dressing – rather, abstract and off-beat – shall also give you many shopping ideas. So, don't hesitate in taking them along – they may appear too tied up/ self-centred initially – but, often, you won't regret their company. When it comes to jewellery, they like to be close to the nature. So, precious stones, shells, cowries and pearls are preferred, and so are precious, gleaming metals. And, that's exactly how they also like to keep their auto-mobiles – glistening and shimmering! Quite possessive about their dream machine, they are proud of their possession, and would love to flaunt it.

Pisces: Most Fish have a tendency to be quite laid-back, so they need a 'real' push to 'exercise'. However, since most of them are quite appearance-conscious, they would eventually do something or other for their fitness. Fascinated by the waves of sparkling water, Pisces natives wish to be close to water bodies for long hours. And, if that water-body is a sea, nothing like it! Hence, besides regular work-out sessions at the gym, a Pisces native may often be spotted at the pool-side/ sea-shore, as

swimming or aqua-aerobics shall turn out to be the most pleasurable ways to burn calories for him/her. Most Fish adore the sensuality of warm water, of floating and gliding through currents. And, this is evident from their special preference for water sports like water skiing, river rafting and deep-sea diving.

When it comes to shopping, impulsive is the word that best describes a Pisces native. They love to shop and gift, and are often quick to pick up items that appeal to their eyes. Nothing run-of-the-mill would be allowed to enter a Pisces domain, though. They are quite selective that way, and prefer to collect exquisite objects. Like, if it's about jewellery, gold rules all the way! Whether it's a trinket or a finely carved necklace, the gleam of gold with, maybe, a touch of their favourite blue precious stones, will be evident! As for their choice of auto-mobiles, not much can be said. They often tend to keep their vehicle, whichever one they have, neglected, and would not send it in wash or repair unless extremely necessary!

DECODING SAGITTARIUS

Adventurous yet philosophical, Sagittarius, better known as – Archer, is a typical fire sign – full of beans, volatile to the t, exaggerated in speech and expression and absolutely in love with freedom. Most Archers are focused and goal-oriented, though. They aim to get the best in life. The far-sightedness of mature Archers helps them plan their lives well in advance, be it their goals, career or even retirement. Their thirst for knowledge enables them to expand their horizons and broaden their vistas and world view. Lovers of travelling and fun activities, they prefer keeping a cheerful and optimistic demeanour at all times. Probably that's why, they are perceived as friendly extroverts by many. The true wanderers, Archers are eager to explore new avenues, learn new things, multi-task, attend social gatherings, try out new options to increase their wealth, and hence keep growing as a person. Not the ones to shy away from exploring uncharted territories, they keep a positive attitude and are courageous, sharp and experimental.

Often liable to be viewed as tactless and over-the-top, due to their eager ways, Archers are actually quite honest people, albeit blunt in expressing their opinions. Remaining immersed in reading, studying and hobbies like music and creative arts is a Sagittarius native's preferred ways to live. Possessors of vast reserves of energy and enthusiasm, they need outlets in form of endless chat-sessions, vigorous sports and activities like hiking / trekking etc. and creative arts, so as to remain balanced and calm. Action, initiative and ebullience come naturally to them, and they expect, often unduly though, the same from others around them.

Given a chance, Archers would also like to enlighten people around them. For the knowledgeable and development-oriented Archer, spiritual and philosophical areas are matters of great interest. Naturally, they love to seek knowledge and education of a higher level. Globetrotters, Archers ache to study the history, culture and people of faraway places. For many of them knowledge is beyond formal education and school curriculum. Natural with people, and often on stage, Archers crave popularity – be it in their own small circle or the world, at large.

Building wealth is one of the most important goals in life for Archers, but inherently they are generous people. They are proactive when it comes to donations and charities, as these noble acts generate all-around goodwill, and also garner praises for them. And, praise is very important

to an Archer! They also believe that no matter how much money they give away for charity, they are capable enough to fulfil their financial dreams. Therefore, the size of their bank balance is hardly a matter of concern for them. The ability to help others economically is a reward in itself. Although they like material success, they are unaffected when it comes to sharing their materialistic possessions. Every act of giving is like food for the soul, which gives them utmost satisfaction and happiness.

THE ARCHERS IN PROFESSIONAL AND PUBLIC DOMAIN

The Archers want a successful and high-flying career. If you scan their dairies, there is a high possibility that you will come across a list that says '100 things to do in life, before I die'. This long list may include achieving good name, fame, money, social prestige, travel plans and of course accumulating wealth and knowledge. They are aware of the fact that comforts and luxuries of life are the result of a successful professional life. Thus, they always aim to put their best foot forward when they undertake any projects. This does not only earn them name and fame, but also boosts their ego. Archers are usually in love with themselves. They are proud of their achievements and will love to show them to the world. However, it's important for them to refrain from being egoistic in order to keep the equations with their near and dear ones good and intact.

The Archers are assets to the companies they work for. They are sincere, hard-working, honest, trustworthy, enthusiastic and most of all, ready to take up challenges. Who wouldn't want such an employee? They are highly dependable, and their colleagues can count on them in times of crisis. Ask them to brainstorm and they will come up with brilliant ideas and suggestions. Given a choice, they would take up a job that allows them to be independent – like that of a supervisor or a higher authority. Give them a profile, which requires building contacts and travelling, and they will do a remarkable job.

THE ARCHERS IN FINANCIAL AND MONEY MATTERS

The Archers are very passionate about wealth and opulence. Their need for wealth is not limited to acquiring basic necessities or comforts, though. They long for the luxuries of the world. Everything expensive and wealthy appeals to them – so, be it fast cars, five-star holidays or palatial bungalows, the Sagittarius will reserve his/ her special preference for it. Thus, creating wealth is the motto of many of the

Archers' lives, for only then they will be able to afford what they desire. And, when the strong-willed Archer decides to fulfil his dreams, he feels that everything is within reach; nothing stops this drive then.

However, many times, these remain what they are – wealthy ideals! It's one thing to desire and visualise such luxury and opulence, but it's a completely different task to translate these lofty dreams into reality. Thus, before setting their high standards, Archers need to do a thorough reality check. They need to search inside their lives, financial situation and ability to see if they really have it in them to be a winner. It's a give that the optimistic Archers possess a never-say-die attitude. But, setting unrealistic goals is never fruitful. Pitching your expectations too high can only result in disillusionment and dissatisfaction – however decent the result may be!

Hence, Archers need to put things in perspective before setting any goals, and should aim to go forward, step-by-step. Impatience and aggressiveness is an unfavourable combination. Over-confident and over zealousness shall only tire them or even frustrate them. There are chances that the desire to get quick money may lead them to the nasty games of speculations and gambling. Or, they may end up taking too much risk with their money – a sure shot way to a blow one's financial means and stability. Ideally, they should opt for efficient and practical ways to earn money, as it will make their lives happier and more fruitful. Balance is required here too!

THE ARCHERS IN MATTERS OF HEART AND INTERPERSONAL RELATIONSHIPS

Archers adore their freedom – period! They are not the ones who would prefer to remain tied to the chains of a relationship – if given a choice, that is. They are like free birds, which get restless and lose their lustre when kept in a cage. And, if circumstances compel them to commit, they will think umpteen times before committing. One reason for their fear of commitment is that they are quite fickle-minded. They tend to change their likings and preferences quite often, which isn't a favourable Sign for a long-term relationship like marriage.

But, does that imply that Archers don't want to marry or fall in love? The answer is 'NO'! They love the idea of 'love' itself. Given to doing their own thing, without being told from others, falling in love is like an act of rebellion for most Archers. And, an Archer in love enjoys his/her

relationship. He/ she is quite refreshing as a lover, allowing them all the freedom and spending lavishly on them. Loving and passionate, they also like sharing their experiences with their partners. In great detail! And, they are often very quick to fall headlong in love. Too self-immersed for their own good, Archers may fall for people who are beautiful, wealthy and ready to listen to them and praise them. Not always, though. For, Archers may also look for stable and practical partners, who would be their perfect antithesis – it's natural to look for complementary partners, no? Now, the partners of Archers will invariably be happy - till the Archer himself/ herself is interested in them. Though, they may have a tough time dealing with the egocentric Archers, they will appreciate their ardent gestures of love and adoration. After all, any one would love to be pampered and be treated as the supreme of anyone's life. The question is till when? And, how much?

And, when that happens, Archers fail to pay any heed to their partners' point of view. In such cases, there are chances of friction and conflicts. Thus, it is necessary for them to realise that a relationship is made up of two people, and the views, preferences and lives of both of them are important. A relationship needs patience and adjustment – it may tie the person, but then, those ties are very special, those are the ones that make the life worthwhile. Archers may also try to broaden their perspective about accepting others' views. This will help their partners be more frank and open about their thoughts, ideas and experiences, and this shall facilitate the mutual flow of ideas.

THE ARCHERS IN MATTERS OF HOME AND DOMESTICITY

An Archer loves children, and is likely to have more than one. But, then it's the institution of marriage itself, which may seem stifling to a freedom craving Sagittarius. Paradoxical, yet true! However, matured Archers do have lovely families, and they are doting spouses/ parents. Family-oriented Archers would love to have spacious homes and modern, unconventional families. They expect a lot from their spouses. Archer expects his/ her spouse to share all his/ her creative and intellectual interests. And, they expect them to seamlessly run their homes. Thus, a spouse to an Archer may often feel tired and listless, all thanks to the effort and energy expenditure.

As a parent, the Sagittarius prefers to allow a lot of freedom to his children, and even spouse. Lovers of freedom themselves, the Archers respect their family members' urge for personal space and freedom of

speech. It won't be wrong to say that they often make permissive parents – going overboard sometimes. Or, are their children only emulating Archers' own rebellious casual, free outlook towards life?

This approach, though, may sometimes backfire; too much of freedom when given to children may make them careless and unmindful of reality. Although being free is a positive approach, and such an attitude allows the children a great environment to develop self-confidence and clarity of mind, a line needs to be drawn somewhere. Same holds true in other matters of domesticity.

Zodiac Design Sensibilities

Home Design Sensibilities of Sagittarius

All Sagittarius natives, true to their form, love freedom and the sense of open, unrestricted spaces. Confined surroundings make them claustrophobic. Also, intellectual stimulation, depth and profound expression are extremely important to them. All their choices and décor sensibilities are ruled by these very aspects. The colours associated with Sagittarius are the darker shades of purple, blue and deeper hues. These colours not only gel well with Archers' intellectual and emotional expanse, but also allow them the scope of experimentation (without being jarring). Have you seen a deep burgundy/ vermilion sofa, going so well with the rest of the elements that it doesn't look garish? If answer is a no, you better head to a proud Archer's home for some design clues.

An Archer, besides being in love with the open spaces (a countryside or a suburb may offer), also appreciates the accessibility to all modern facilities for routine tasks, fun and entertainment (only a city centre/ a town hub will provide). Thus, they would prefer to set up their abode somewhere, where they can find a middle ground!

Not the ones to go in for a very stylized, ultra-chic décor, they would, rather, like it to be relaxed, even slightly messy. Plus, there has to be a cerebral undercurrent pervading all the elements and activities. Don't expect an Archer to stick to a particular theme or interior style – they may club two or more styles, may borrow something from a preferred one, and develop it as per their sensibilities, or may keep trying and testing to see what looks the best. Or, they may not employ any style, and may decide to leave things as they are!

The entrance to an Archer's home will have similar nuances, not a very set appearance, and may change with each individual Archer's thought process. Inside, expect a few eclectic elements and pieces thrown together, which, although messy, shall succeed in lending the space a cosy feeling. The living area would also be an extension of these sensibilities, what with certain exotic rugs and really bourgeois ones blended effortlessly. An open fire place – if possible given the weather, economics and the architectural elements – would be ideal, as it would add to the preferred rustic charm, and would also fuel the Archer's zodiac element Fire. If that's not practical, hang a painting of the sort,

get an electric/ imitation fire or incorporate loads of fiery colours.

The furniture is best kept sturdy, low maintenance, eclectic and comfortable. Large furniture pieces in wood, upholstered chairs, thick-piled carpets, a variety of textures in furnishings and wallpapers, huge bookcases, some old chests and drawers will all find favour. Flooring too is best kept simple and resilient. Ceramic tiles work well, and so do the floorboards, which don't require too much of cleaning and treatment.

Natural daylight definitely scores for Archers over anything that's harsh, stark or artificial. However, Archers do need their dark, dingy corners, as too much of light may make them even more restless (than they already are). Hence, some dark areas with draped windows should be provided for. The lighting inside the house should be strictly utilitarian and conventional. Some antique lamps, eccentric table lamps may be used for additional charm, though.

The cooking area will be best kept simple and low maintenance. However, do keep ample storage space for good stuff like wines, exotic cheese and anything that's not run-of-the-mill. Gregarious Archers, often, possess a big clique of friends. The kitchen area, thus, should ideally have a dining area attached, should have a chimney for a smoke-free dining experience, and be spacious.

The bedroom, as per the Archer himself, may not be too important, for he is often too restless to sleep well. However, on the contrary, an effort should be made to create a rather cosy and restful sleeping area. Besides this, the bedroom has to be a place where Archers can truly recharge their batteries. TV, laptop, surround sound music facility and other such chic gadgets may be found in the Archer's den. Some quirky elements may be introduced keeping in line with the whimsical Archer's sensibilities- there can be a 'different' wall hanging, some arty lamps, unique texture for flooring or some really gaudy bed spreads.

Rustic and comfortable, the bath area should be airy with ample scope for the natural daylight to filter in. An Archer may possess a plenty of bath salts, aromatic oils, loofahs and fancy bath products. So, the bathroom too should have provision of storage space. The sanitary-ware may be basic, but practical. The colours like autumn, mahogany, calming ecru or off white should be used as the key elements – on the walls, floor or anywhere else.

Any extra space in this home would be a study room or a room to retire

with books and gadgets. Internet connectivity may be important for Archers, as it helps them quench their insatiable thirst for knowledge, and so are the books. A huge, antiquarian, wall-to-wall book case in oak-wood will obviously make a pride possession; given the home has a space to accommodate it.
